MATHEMATICAL REVIEWS

A journal containing reviews of the mathematical literature of the world, with full subject and author indices

Publication of this journal is sponsored by the American Mathematical Society, Mathematical Association of America, Institute of Mathematical Statistics, London Mathematical Society, Edinburgh Mathematical Society, Union Matematica Argentina, and others.

Subscriptions accepted to cover the calendar year only.
Issues appear monthly except July. $20.00 per year.

Send subscription order or request for sample copy to

AMERICAN MATHEMATICAL SOCIETY
531 West 116th Street, New York City 27

ACCEPTANCE SAMPLING

A Symposium

Acceptance Sampling by Attributes

Developments Prior to 1941 ..... **Paul Peach**
Wartime Developments ..... **E. G. Olds**

Acceptance Sampling by Variables

Lot Quality Measured by Average or Variability ..... **J. H. Curtiss**
Lot Quality Measured by Proportion Defective ..... **W. Allen Wallis**
Chairman's Closure ..... **J. W. Tukey**

176 Pages **Price $1.50**

Available from
AMERICAN STATISTICAL ASSOCIATION
1108 16th Street, N. W., Washington 6, D. C.

Institute of Mathematical Statistics is collaborating with JSTOR to digitize, preserve, and extend access to *The Annals of Mathematical Statistics.*

SKANDINAVISK AKTUARIETIDSKRIFT

1949 – Parts 3 – 4

Contents

A. HALD: Maximum Likelihood Estimation of the Parameters of a Normal Distribution which is Truncated at a Known Point 119

N. F. GJEDDEBAEK: Contribution to the Study of Grouped Observations. Application of the Method of Maximum Likelihood in Case of Normally Distributed Observations 135

J. F. STEFFENSEN: On the Technical Functions of Invalidity Insurance 160

S. J. BJORAA: Approximate Values of Premium Return Assurances 176

HANNES HYRENIUS: Sampling Distribution from a Compound Normal Parent Population 180

H. L. SEAL: Mortality Data and the Binomial Probability Law 188

Annual subscription: 10 Swedish Crowns (Approx. $2.00).

Inquiries and orders may be addressed to the Editor,

SKÄRVIKSVÄGEN 7, DJURSHOLM (SWEDEN)

ECONOMETRICA

Journal of the Econometric Society

Contents of Vol. 18, April, 1950, include:

WASSILY LEONTIEF ..... Joseph A. Schumpeter (1883–1950)

JACOB MARSCHAK
Rational Behavior, Uncertain Prospects, and Measurable Utility

FREDERICK V. WAUGH ..... Inversion of the Leontief Matrix by Power Series

JOHN F. NASH, JR. ..... The Bargaining Problem

EDGAR O. EDWARDS ..... The Analysis of Output Under Discrimination

Report of the Boulder Meeting, August 29–September 2, 1949.

The Mathematical Training of Social Scientists, Report of the Boulder Symposium.

Announcements of Future Meetings.

Published Quarterly — Subscription to Nonmembers: $9.00 per year

The Econometric Society is an international society for the advancement of economic theory in its relation to statistics and mathematics.

Subscriptions to *Econometrica* and inquiries about the work of the Society and the procedure in applying for membership should be addressed to William B. Simpson, Secretary, The Econometric Society, The University of Chicago, Chicago 37, Illinois, U.S.A.

BIOMETRIKA

A Journal for the Statistical Study of Biological Problems

Volume XXXVI **Contents** **Parts III and IV, December 1949**

I. The estimation of the parameters of tolerance distributions. By D. J. FINNEY. II. An overiap problem arising in particle counting. By P. ARMITAGE. III. Tables of autoregressive series. By M. G. KENDALL. IV. Tables for use in comparisons whose accuracy involves two variances, separately estimated. By ALICE A. ASPIN. V. Bivariate distributions based on simple translation systems. By N. L. JOHNSON. VI. A test for randomness in a sequence of two alternatives involving a 2 x 2 table. By P. G. Moore. VII. A general distribution theory for a class of likelihood criteria. By G. E. P. BOX. VIII. Note on approximations to the power function of the '2 x 2 comparative trial.' By G. P. SILLITTO. IX. The distribution of 'Student's' t in random samples of any size drawn from non-normal universes. By A. K. GAYEN. X. The combination of probabilities arising from data in discrete distributions. By H. O. LANCASTER. XI. Note on the application of Fisher's k-statistics. By F. N. DAVID. XII. The moments of the z and F distributions. By F. N. DAVID. XII. The method of frequency-moments and its application to type VII populations. By HERBERT S. SICHEL. XIII. On the use of Student's t-test in an asymmetrical population. By S. G. GHURYE. XIV. Tables of symmetric functions—Part I. By F. N. DAVID and M. G. KENDALL. MISCELLANEA: On the efficiency of the method of moments and Neyman's type A distribution. By L. R. SHENTON. Large-sample theory of sequential estimation. By F. J. ANSCOMBE. A historical note on the method of least squares. By R. L. PLACKETT. The characteristic function of a weighted sum of non-central squares of normal variates subject to s linear restraints. By G. I. BATEMAN. Intra-class rank correlation. By J. W. WHITFIELD. A note on non-normal correlation. By J. B. S. HALDANE. REVIEWS: F. N. DAVID'S 'Probability Theory for Statistical Methods' and T. L. KELLEY'S 'The Fundamentals of Statistics.'

The subscription price, *payable in advance*, is 45s. inland, 54s. export (per volume including postage). Cheques should be drawn to Biometrika and sent to "The Secretary, Biometrika Office, Department of Statistics, University College, London, W.C. 1." All foreign cheques must be in sterling and drawn on a bank having a London agency.

SANKHYĀ

The Indian Journal of Statistics

Edited by P. C. Mahalanobis

Vol. IX, Part 4, 1949

A theoretical system of selection for Homostyle Primula..... R. A. FISHER

On some problems arising out of discrimination with multiple characters
C. RADHAKRISHNA RAO

On certain aspects of spring balance designs..... K. S. BANERJEE

United Nations Economic and Social Council Sub-commission on Statistical Sampling:
Report to the Statistical Commission
Recommendations concerning the preparation of reports of Sampling Surveys

Comparability of measurements..... K. P. CHATTOPADHYAY

Book Reviews

Annual subscription: 30 rupees
Inquiries and orders may be addressed to the
Editor, Sankhyā, Presidency College, Calcutta, India.

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

OFFICERS FOR 1950

President:
J. L. DOOB, University of Illinois, Urbana

President-Elect:
P. S. DWYER, University of Michigan, Ann Arbor

Secretary-Treasurer:
C. H. FISCHER, University of Michigan, Ann Arbor

Editor:
T. W. ANDERSON, Columbia University, New York

The purpose of the Institute of Mathematical Statistics is to stimulate research in the mathematical theory of statistics and to promote cooperation between the field of pure research and the fields of application.

Membership dues including subscription to the ANNALS OF MATHEMATICAL STATISTICS are $7.00 per year within the Western Hemisphere and $5.00 per year elsewhere. Dues and inquiries regarding membership in the Institute should be sent to the Secretary-Treasurer of the Institute.

MEETINGS OF THE INSTITUTE

BERKELEY, CALIFORNIA, August 5, 1950

Meeting in connection with the Second Berkeley Symposium on Mathematical Statistics and Probability. Abstracts must be in the hands of Associate Secretary J. L. Hodges, Jr., Statistical Laboratory, University of California, Berkeley 4, California, not later than June 30.

ANNUAL MEETING—CHICAGO, ILLINOIS—December 27–29, 1950.

To be held in conjunction with the meetings of the American Statistical Association. Abstracts must be in the hands of Associate Secretary K. J. Arnold, Mathematics Department, University of Wisconsin, Madison, Wisconsin, not later than November 15.

INTERNATIONAL CONGRESS OF MATHEMATICIANS

CAMBRIDGE, MASSACHUSETTS, August 30–September 6, 1950.

An International Congress of Mathematicians will be held by invitation of the American Mathematical Society with Harvard University as principal host. In addition to sectional meetings for contributed papers, there will be Conferences in Algebra, Analysis, Applied Mathematics, and Topology. Abstracts for contributed papers are to be sent in duplicate to the American Mathematical Society, 531 West 116th St., New York 27, N. Y., not later than May 15. Abstract blanks may be obtained from this office.
