“When we read what their college will cost...we bought the maximum life insurance available in the IMS Members’ Insurance Program...”

“... Oh, we expect to be there—proud as can be—when they enter college. But, just in case one of us isn’t... the insurance coverage will be.”

If a breadwinner is no longer around to provide for family shelter and the children’s college education... life insurance had better be.

Our group term life insurance can supplement your insurance portfolio so that your family has the protection it needs now—and for the future.

As a member, you can fill your

insurance needs at low group rates. You can get family coverage, too. And if you change jobs, your group insurance automatically goes with you, so there’s no lapse in your insurance coverage.

Check *your* insurance portfolio. Will it meet your family’s future needs? If not, call or write the Administrator.

**UP TO \$240,000 IN
TERM LIFE INSURANCE PROTECTION
IS AVAILABLE TO IMS MEMBERS.**

The IMS Life Plan is underwritten by New York Life Insurance Company, New York, New York 10010 on form number GMR.

The Annals of Probability

Vol. 17

October 1989

No. 4

Articles

- The correlation length for the high-density phase of Bernoulli percolation
J. T. CHAYES, L. CHAYES, G. R. GRIMMETT, H. KESTEN AND R. H. SCHONMANN
- The contact process on a finite set. III: The critical case
RICHARD DURRETT, ROBERTO H. SCHONMANN AND NELSON I. TANAKA
- The central limit theorem for the right edge of supercritical oriented percolation THOMAS KUCZEK
- Coalescing random walks and voter model consensus times on the torus in \mathbb{Z}^d ... J. T. COX
- The infinite self-avoiding walk in high dimensions GREGORY F. LAWLER
- Windings of random walks CLAUDE BÉLISLE
- Uniqueness of the infinite cluster for stationary Gibbs states ALBERTO GANDOLFI
- Uniqueness of Gibbs measures and absorption probabilities HENRY BERBEE
- Continuity properties for random fields JOHN T. KENT
- On independence and conditioning on Wiener space
ALI SULEYMAN ÜSTÜNEL AND MOSHE ZAKAI
- Uniform dimension results for the Brownian sheet T. S. MOUNTFORD
- On the extinction of measure-valued critical branching
Brownian motion LI LIU AND CARL MUELLER
- Geometric growth in near-supercritical population size dependent multitype
Galton-Watson processes FIMA C. KLEBANER
- A sufficient condition for two Markov semigroups to commute A. L. BEQUILLARD
- A limit theorem for a class of inhomogeneous Markov processes
TZUU-SHUH CHIANG AND YUNSHYONG CHOW
- An asymptotic evaluation of the tail of a multiple symmetric α -stable integral
GENNADY SAMORODNITSKY AND JERZY SZULGA
- Sur une intégrale pour les processus à α -variation bornée JEAN BERTOIN
- On the relation between the Stratonovich and Ogawa integrals
D. NUALART AND M. ZAKAI
- A comparison theorem for stochastic equations with Volterra drifts ... CONSTANTIN TUDOR
- Isoperimetry and integrability of the sum of independent Banach-space valued random variables MICHEL TALAGRAND
- Self-normalized laws of the iterated logarithm PHILIP GRIFFIN AND JAMES KUELBS
- Edgeworth expansions in functional limit theorems F. GÖTZE
- Tail triviality for sums of stationary random variables
H. C. P. BERBEE AND W. TH. F. DEN HOLLANDER
- On normal approximations of distributions in terms of dependency graphs
PIERRE BALDI AND YOSEF RINOTT
- On a problem of H. P. McKean LOREN D. PITT
- Coding a stationary process to one with prescribed marginals
S. ALPERN AND V. S. PRASAD
- Fisher information and dichotomies in equivalence/contiguity BRIAN J. THELEN
- Dynamic, transient and stationary behavior of the $M/GI/1$ queue via martingales FRANÇOIS BACCELLI AND ARMAND M. MAKOWSKI

The
Annual Index
to the
Statistical Literature of the World

**CURRENT INDEX TO STATISTICS
APPLICATIONS, METHODS AND THEORY
VOLUME 14 (1988)–NOW AVAILABLE**

- More than 9,900 articles from "core" and "related" journals and books indexed for 1988.
- Complete coverage of 86 core journals in statistics, probability, and related fields.
- Articles selected and indexed from many other journals.
- Subject index lists each article alphabetically according to each *important word* in its title.
- Subject index also lists articles alphabetically according to *key words* not appearing in the title.
- Author index lists each article under the name of each author.
- Reasonable prices:

Volumes 1-15

IMS/ASA Members	\$18
Nonmember Individuals	\$25
Nonmember institutions	\$54

Published jointly by the Institute of Mathematical Statistics and the American Statistical Association. Volumes 1-14 are available now at the above prices. Publication of Volume 15 (1989) is expected late in 1990. Orders for Volume 15 are now being accepted at the above prices, with shipping upon availability. Please specify applicable rate and volume number(s) desired. Order prepaid from:
