Tired of searching through 14 volumes of the
Current Index to Statistics to find papers on linear models?

**CUMULATIVE INDEX TO LINEAR MODELS
APPLICATIONS, DESIGN, METHODS AND THEORY
1975-1988**

- Contains citations to more than 10,000 articles taken from the *Current Index to Statistics* (Vols. 1-14, 1975-1988).
- Follows the same format as the *Current Index to Statistics*, including important and key words, and an author index.
- Lists articles on applications, design, methods and theory relating broadly to linear models.
- Examples of areas included: analysis of variance, Bayesian methods and theory, calibration, diagnostics, estimation and testing, exploratory methods, isotonic regression, MINQUE, mixed and random effects models, multiple comparisons, optimal and classical design, principal component and projection pursuit regression, robust and nonparametric theory and methods.
- Examples of areas excluded: decision theory, foundations, generalized linear models, multivariate statistics, nonlinear models, sampling and time series.
- Reasonable prices:

IMS/ASA Members	\$20
Other individuals	\$40
Other institutions	\$100

Published jointly by the Institute of Mathematical Statistics and the American Statistical Association. Publication of the *Cumulative Index to Linear Models* is expected in late 1990. Orders are now being accepted at the above prices, with shipping upon availability. Order prepaid from:

**Institute of Mathematical Statistics
3401 Investment Boulevard, Suite 7
Hayward, California 94545 (USA)**

IMS Life Insurance
Takes The Weight Off These.

Your Association uses group purchasing power to negotiate top quality Term Life Insurance, at a very low price. What's more, it's insurance specially designed for your professional needs. It can be tailored for the individual, and it can stay with you even if you change jobs.

To take advantage of this benefit of membership—and take the weight off

your shoulders—call 1-800-424-9883 for further details (in Washington, D.C. call 457-6820).

IMS INSURANCE
Designed by Members.
For Members.

The IMS Life Plan is underwritten by New York Life Insurance Company, New York, New York 10010 on form number GMR.

Articles

- Local time and stochastic area integrals L. C. G. ROGERS AND J. B. WALSH
On an independence criterion for multiple Wiener integrals OLAV KALLENBERG
Some potential theory for reflecting Brownian motion in Hölder and
Lipschitz domains RICHARD F. BASS AND PEI HSU
Large deviations for diffusion processes with homogenization
and applications PAOLO BALDI
Uniqueness for some diffusions with discontinuous coefficients
M. CRISTINA CERUTTI, LUIS ESCAURIAZA AND EUGENE B. FABES
Some estimates of the transition density of a nondegenerate
diffusion Markov process SHUENN-JYI SHEU
Symmetry groups and translation invariant representations
of Markov processes JOSEPH GLOVER
On the central limit theorem for Markov chains
in random environments ROBERT COGBURN
A characterization of reversible Markov chains by a rotational representation
P. RODRÍGUEZ DEL TÍO AND M. C. VALSERO BLANCO
Space-time Bernoullicity of the lower and upper stationary processes
for attractive spin systems JEFFREY E. STEIF
An uniform central limit theorem for nonuniform ϕ -mixing random fields
DONGCHING CHEN
The range of stable random walks JEAN-FRANÇOIS LE GALL AND JAY ROSEN
Sample and ergodic properties of some min-stable processes . . KEITH STEVEN WEINTRAUB
On the rate of convergence in the multivariate CLT F. GÖTZE
On iterated logarithm laws for linear arrays and nonparametric
regression estimators PETER HALL
Gaussian characterization of uniform Donsker classes
of functions EVARIST GINÉ AND JOEL ZINN
The asymptotic distribution of extreme sums
SÁNDOR CSÖRGŐ, ERICH HAEUSLER AND DAVID M. MASON
Conditional U -statistics WINFRIED STUTE
Embedding the finite sampling process at a rate GALEN R. SHORACK
On the linear prediction of multivariate $(2, p)$ -bounded processes . . CHRISTIAN HOUDRÉ
Proof of a conjecture of M. L. Eaton on the characteristic function
of the Wishart distribution . . . SHYAMAL DAS PEDDADA AND DONALD ST. P. RICHARDS
Spectral decomposition for generalized domains of attraction . . . MARK M. MEERSCHAERT
Unstable collectives and envelopes of probability measures
ADRIAN PAPAMARCOU AND TERRENCE L. FINE

The Institute of Mathematical Statistics
announces publication of the

**CUMULATIVE INDEX TO
IMS SCIENTIFIC JOURNALS
1960–1989**

- Indexes the following journals:

The Annals of Mathematical Statistics (Vols. 31-43, 1960-1972)

The Annals of Statistics (Vols. 1-17, 1973-1989)

The Annals of Probability (Vols. 1-17, 1973-1989)

Statistical Science (Vols. 1-4, 1986-1989)

Selected articles from *The IMS Bulletin* (Vols. 16-18, 1987-1989)

- Follows the same format as the *Current Index to Statistics*, including author and subject indexes:

Author index lists each author of each article. Lists are chronological for each author.

Subject index lists each article according to important words in its title and key words not appearing in the title.

Published by the Institute of Mathematical Statistics. Publication of the *Cumulative Index to IMS Scientific Journals* is expected in early 1991.

List price \$50

IMS member price \$15

Orders are now being accepted at the above prices, with shipping upon availability.
Order prepaid from:
