

BAYESIAN ANALYSIS

Articles

| | |
|--|-----|
| Bayesian Estimation of Principal Components for Functional Data | |
| A. J. Suarez and S. Ghosal | 311 |
| Bayesian Functional Data Modeling for Heterogeneous Volatility | |
| B. Zhu and D. B. Dunson | 335 |
| Latent Space Approaches to Community Detection in Dynamic Networks | |
| D. K. Sewell and Y. Chen | 351 |
| Dependent Species Sampling Models for Spatial Density Estimation | |
| S. Jo, J. Lee, P. Müller, F. A. Quintana, and L. Trippa | 379 |
| A Hierarchical Bayesian Setting for an Inverse Problem in Linear Parabolic PDEs with Noisy Boundary Conditions | |
| F. Ruggeri, Z. Sawlan, M. Scavino, and R. Tempone | 407 |
| Bayesian Inference for Diffusion-Driven Mixed-Effects Models | |
| G. A. Whitaker, A. Golightly, R. J. Boys, and C. Sherlock | 435 |
| Automated Parameter Blocking for Efficient Markov Chain Monte Carlo Sampling D. Turek, P. de Valpine, C. J. Paciorek, and C. Anderson-Bergman | 465 |
| Dynamic Chain Graph Models for Time Series Network Data | |
| O. Anacleto and C. Queen | 491 |
| Mixtures of g -Priors for Analysis of Variance Models with a Diverging Number of Parameters | |
| M. Wang | 511 |
| Data-Dependent Posterior Propriety of a Bayesian Beta-Binomial-Logit Model H. Tak and C. N. Morris | 533 |
| Variational Bayes for Functional Data Registration, Smoothing, and Prediction. C. Earls and G. Hooker | 557 |

Invited Review Paper
