THE NOVEMBER MEETING IN CLEMSON

The six hundred and sixtieth meeting of the American Mathematical Society was held at Clemson University, Clemson, South Carolina, November 8–9, 1968. There were 396 registrants including 250 members of the Society.

By invitation of the Committee to Select Hour Speakers for Southeastern Sectional Meetings, there were three invited speakers. Professor C. H. Edwards, Jr. of the University of Georgia was introduced by Professor O. G. Harrold. He spoke on *Piece-wise linear embedding and unknotting problems*. Professor Laszlo Fuchs of Tulane University, who was introduced by Professor Paul Hill, spoke on *Some recent developments in abelian groups*. Professor Malcolm Robertson of the University of Delaware was introduced by Professor John T. Poole. The title of his address was *Quasi-subordination and coefficient conjectures*.

The sessions for contributed papers were chaired by Professors Alfred T. Brauer, Andrew Sobczyk, William Mahavier, Donald D. Miller, Lawrence S. Husch, Jr., Laszlo Fuchs, E. P. Miles, Jr., Trevor Evans and B. A. Fusaro.

An informal social and beer party was held on Friday evening for the members of the Society and their guests.
