

# Contents

<b>R. B. SILVA and G. M. CORDEIRO</b> The Burr XII power series distributions: A new compounding family .....	565
<b>D. KUNDU</b> Bivariate sinh-normal distribution and a related model .....	590
<b>C. C. M. PARAÍBA, C. A. R. DINIZ and R. M. PIRES</b> Bayesian analysis and diagnostic of overdispersion models for binomial data ..	608
<b>S. BHATTACHARYA and S. SEN ROY</b> Asymptotic distribution of the estimated parameters of an ARMA( $p, q$ ) process with mixing innovations .....	640
<b>W.-Y. CHIU</b> An optimal combination of risk-return and naive hedging.....	656
<b>V. L. D. TOMAZELLA and S. NADARAJAH</b> Estimation of parameters in Laplace distributions with interval censored data	677
<b>M. ALIZADEH, S. F. BAGHERI, E. BALOUI JAMKHANEH and S. NADARAJAH</b> Estimates of the PDF and the CDF of the exponentiated Weibull distribution ..	695
<b>Z. TAN</b> Almost sure central limit theorem for exceedance point processes of stationary sequences .....	717
