Communications in Mathematical Physics

It is a fundamental condition that manuscripts submitted have not been, and will not be published elsewhere, either simultaneously or at a later date. With the acceptance of a manuscript for publication, the publishers acquire the sole copyright for all languages and countries. Unless special permission has been granted by the publishers, no photographic reproductions, microform or any other reproductions of a similar nature may be made of the journal, of individual contributions contained therein or of extracts therefrom.

75 offprints of each article will be supplied to the author free-of-charge and additional copies may be obtained at cost price if ordered before the issue goes to press.

Manuscripts may be sent to:

Prof. H. Araki, Research Institute for Mathematical Sciences, Kyoto University, Kyoto, Japan

In order to avoid delay in publication this journal appears in loose numbers which can be subsequently assembled in volumes. One volume usually consists of 4 numbers. The price of one volume is DM 128,— plus postage and handling.
