	PAGE
<b>R. OLÁH:</b> Oscillation of differential equation of neutral type.....	1
<b>W. A. J. KOSMALA:</b> Behavior of bounded positive solutions of higher order differential equations.....	11
<b>N. FUKAGAI and K. NARUKAWA:</b> Nonlinear eigenvalue problem for a model equation of an elastic surface .....	19
<b>M. KOIKE:</b> Orthogonal matrices obtained from hypergeometric series over finite fields and elliptic curves over finite fields .....	43
<b>Y. KITAMURA and KUSANO T.:</b> Existence theorems for a neutral func- tional differential equation whose leading part contains a difference operator of higher degree .....	53
<b>Y. FURUKAWA:</b> Homotopy-normality of Lie groups III .....	83
<b>Y. YOKOI:</b> Simple setting for white noise calculus using Bargmann space and Gauss transform .....	97
<b>S. IKEDA:</b> On the Billingsley dimension on $R^N$ .....	123
<b>K. KOJO:</b> On the notion of multiple Markov S&S processes .....	143
<b>M. INOUE</b> Long time behaviour for a diffusion process associated with a porous medium equation.....	159
<b>Z. LI:</b> A study of nonparametric estimation of error distribution in linear model based on $L_1$ -norm .....	171
<b>M.-P. CHEN and B. G. ZHANG:</b> Oscillation criteria for a class of perturbed Schrödinger equations .....	207
<b>Y. MIZUTA:</b> A theorem of Hardy-Littlewood and removability for poly- harmonic functions satisfying Hölder's condition .....	215
