

*PROCEEDINGS OF SYMPOSIA IN*

**PURE MATHEMATICS**

**Volume I  
FINITE GROUPS**

The eleven articles in this book are texts of addresses which were delivered at a symposium held in April, 1959. The discussions at the symposium were lively and served to indicate an enormous renewed interest in one of the oldest branches of algebra. The major new results in the field which are brought out in this book should serve to stimulate research activity in the Theory of Groups, one of the most beautiful subjects of mathematics.

The authors contributing papers to this book are:  
J. G. THOMPSON, WALTER FEIT, MICHIO SUZUKI, R. C. LYNDON, MARSHALL HALL, JR., W. E. DESKINS, DANIEL GORENSTEIN, DANIEL HUGHES, HANS ZASSENHAUS, H. S. M. COXETER, WILHELM MAGNUS.

120 pages

\$3.90

**Volume II  
LATTICE THEORY**

The eighteen articles in this volume are the papers presented at the Symposium on Partially Ordered Sets and Lattice Theory held in April, 1959.

The authors contributing papers to this book are:  
R. P. DILWORTH, P. M. WHITMAN, JURIS HARTMANIS, R. A. DEAN, C. C. CHANG and ALFRED HORN, ISRAEL HALPERIN, B. JONSSON, K. D. FRYER, J. E. McLAUGHLIN, LEON HENKIN and ALFRED TARSKI, P. R. HALMOS, C. C. CHANG, R. S. PIERCE, PHILIP DWINGER, GARRETT BIRKHOFF, MARSHALL HALL, JR., L. W. ANDERSON, F. W. ANDERSON.

202 pages

approx. \$6.00

**Volume III  
DIFFERENTIAL GEOMETRY**

The fifteen papers in this volume give a cross-section of many of the types of differential geometry of major current interest: differential topology, Lie groups, complex manifolds, fiber bundles, and differential geometry in the large.

The authors contributing papers to this book are:  
RAOUL BOTT, D. C. SPENCER, JAMES ELLS, JR., LOUIS AUSLANDER, L. NIRENBERG, M. F. ATIYAH and F. HIRZEBRUCH, ALBERT NIJENHUIS, ELDON DYER and R. K. LASHOF, WILLIAM M. BOOTHBY, SHOSHICHI KOBAYASHI, JOHN MILNOR, A. G. WALKER, RICHARD S. PALAIS, EUGENIO CALABI, HANS SAMELSON.

Edited by Carl B. Allendoerfer

200 pages

approx. \$7.50

**Volume IV  
DIFFERENTIAL EQUATIONS**

Edited by C. B. Morrey, Jr. and R. S. Pierce

In preparation.

Members of the Society are entitled to the usual  
25% discount on all the volumes.

# CONTENTS

Vol. 5, No. 2

June, 1961

	Page
Average order of arithmetic functions. By J. P. TULL . . . . .	175
One-dimensional topological semilattices. By L. W. ANDERSON and L. E. WARD, JR. . . . .	182
Die $A$ -Norm einer Gruppe. By WOLFGANG KAPPE . . . . .	187
Groups with representations of bounded degree II. By S. A. AMITSUR. . . . .	198
Groups on $S^n$ with principal orbits of dimension $n-3$ , II. By D. MONTGOMERY and C. T. YANG . . . . .	206
Completions of groups of class 2. By PAUL CONRAD. . . . .	212
Generalizations of a theorem of N. Blackburn on $p$ -groups. By CHARLES R. HOBBY . . . . .	225
The derived series of a finite $p$ -group. By CHARLES R. HOBBY . . . . .	228
Some properties of recurrent random walk. By FRANK SPITZER. . . . .	234
On a theorem of Spitzer and Stone and random walks with absorbing barriers. By HARRY KESTEN . . . . .	246
Random walks with absorbing barriers and Toeplitz forms. By HARRY KESTEN . . . . .	267
Hausdorff dimension in probability theory II. By PATRICK BILLINGSLEY. . . . .	291
On the integral representation of the rate of transmission of a stationary channel. By K. R. PARTHASARATHY . . . . .	299
A condition for the solvability of a finite group. By W. E. DESKINS . . . . .	306
Indecomposable representations. By A. HELLER and I. REINER. . . . .	314
On the number of matrices with given characteristic polynomial. By IRVING REINER . . . . .	324
On the number of nilpotent matrices with coefficients in a finite field. By MURRAY GERSTENHABER . . . . .	330
Some generalizations of finite projective dimension. By J. P. JANS. . . . .	334
Semiprojective completions of abstract curves. By JACK OHM . . . . .	345
A problem about prime numbers and the random walk I. By H. P. McKEAN, JR. . . . .	351
A problem about prime numbers and the random walk II. By P. ERDÖS. . . . .	352

---

Published by the University of Illinois Press in March, June, September and December. Supported in part by the George A. Miller Endowment. Printed by Waverly Press, Baltimore, Maryland.

The subscription price is \$9.00 a volume (four numbers); this is reduced to \$5.00 for individual members of the American Mathematical Society. The price of a single number is \$3.00. Subscriptions should be sent to the University of Illinois Press, Urbana, Illinois.
