

Illinois Journal of Mathematics

Volume 64 | Number 2 | June 2020

- 141 **Coarse dimension and definable sets in expansions of the ordered real vector space**
Erik Walsberg
- 151 **Boundary behavior of the Carathéodory and Kobayashi–Eisenman volume elements**
Diganta Borah and Debaprasanna Kar
- 169 **Reducing invariants and total reflexivity**
Tokuji Araya and Olgur Celikbas
- 185 **On the Banach algebra structure for $C^{(n)}$ of the bidisc and related topics**
Ramiz Tapdıgöglü
- 199 **On the converse law of large numbers**
H. Jerome Keisler and Yeneng Sun
- 227 **Two weighted inequalities for operators associated to a critical radius function**
B. Bongioanni, E. Harboure, and P. Quijano
- 261 **Zeros of derivatives of strictly nonreal meromorphic functions**
J. K. Langley
