JOURNAL OF COMMUTATIVE ALGEBRA

Volume 1	SUMMER 2009	Number 2
voiume i	SUMMER 2009	Number 2

CONTENTS

Bounds for the Castelnuovo-Mumford Regularity By M. Brodmann and T. Götsch
On characterizations of integrality involving the lying-over and incomparable properties By D. E. Dobbs
Properties of factorizations with successive lengths in One-dimensional local domains By W. HASSLER
Artinianness of local cohomology By M. Hellus and J. Stückrad
Generating ideals in pullbacks By E. HOUSTON
The Auslander-Bridger formula and the Gorenstein property For coherent rings By L. Hummel and T. Marley
The Dilworth lattice of Artinian rings By H. Ikeda and J. Watanabe
A Gröbner basis for the secant ideal of the second hypersimplex By S. Sullivant
