
CONTENTS

Cohen-Macaulay properties under the amalgamated construction
By Y. AZIMI, P. SAHANDI AND N. SHIRMOHAMMADI 457

Controlling the dimensions of formal fibers of a unique factorization domain at the height one prime ideals
By SARAH M. FLEMING, LENA JI, S. LOEPP, PETER M. McDONALD, NINA PANDE AND DAVID SCHWEIN 475

The clique ideal property
By THOMAS G. LUCAS 499

On the computation of the Ratliff-Rush closure, associated graded ring and invariance of a length
By AMIR MAFI 547

Plane curves with minimal discriminant
By D. SIMON AND M. WEIMANN 559

Index 599
