
CONTENTS

Some new results on bounded solutions to a semilinear
integro-differential equation in Banach spaces
By YONG-KUI CHANG, XUE-YAN WEI AND
G.M. N'GUÉRÉKATA 153

A nonlinear integral equation and an iterative algorithm
for an inverse source problem
By RAINER KRESS AND WILLIAM RUNDELL 179

An existence result for a class of nonlinear functional
integral equations
By KHALID LATRACH 199

Abstract Volterra equations with state-dependent delay
By CARLOS LIZAMA AND M. PILAR VELASCO 219

Suppression of spurious frequencies in scattering problems by
means of boundary algebraic and combined field equations
By J. POBLET-PUIG, V.YU. VALYAEV
AND A.V. SHANIN 233

Solvability of a general nonlinear integral equation in L^1
spaces by means of a measure of weak noncompactness
By FULI WANG 273

Volterra-type operators from analytic Morrey spaces to
Bloch space
By ZHENGYUAN ZHUO AND SHANLI YE 289
