CONTENTS

Uniqueness of solutions for weakly degenerate cordial Volterra integral equations BY ZYMAN'TAS DARBENAS AND MARCEL OLIVER	307
Controllability of nonlinear impulsive integro-differential fractional time-invariant systems BY YONG HUANG AND ZHENHAI LIU	329
Stable manifolds for some partial neutral functional differential equations with non-dense domain BY CHIRAZ JENDOUBI	343
A doubly nonlocal Laplace operator and its connection to the classical Laplacian BY PETRONELA RADU AND KELSEY WELLS	379
Asymptotic expansions for approximate eigenvalues of integral operators with nonsmooth kernels of multiplicity $m > 1$ BY AKSHAY S. RANE	411
On a special integral equation with an exponential parameter in the kernel BY HONGHU ZHANG	431
