

## CONTENTS

<b>Y. YONEZAWA</b> , The Turing degrees for some computation model with the real parameter .....	311
<b>D. CHEN and Q.-M. CHENG</b> , Extrinsic estimates for eigenvalues of the Laplace operator .....	325
<b>A. LANTERI and C. NOVELLI</b> , Varieties of small degree with respect to codimension and ample vector bundles .....	341
<b>S. DRAGOMIR</b> , Minimality in CR geometry and the CR Yamabe problem on CR manifolds with boundary .....	363
<b>C. ROUSSEAU</b> , Déformations de réseaux dans certains groupes résolubles .....	397
<b>G. XIE and H. MARUBAYASHI</b> , A classification of graded extensions in a skew Laurent polynomial ring .....	423
<b>G. FICHOU</b> , Blow-Nash types of simple singularities .....	445
<b>A. ATSUJI</b> , A second main theorem of Nevanlinna theory for meromorphic functions on complete Kähler manifolds .....	471
<b>S. KURODA</b> , A generalization of the Shestakov-Umirbaev inequality .....	495
<b>F. BAGARELLO, M. FRAGOULOPOULOU, A. INOUE and C. TRAPANI</b> , Structure of locally convex quasi $C^*$ -algebras .....	511
<b>S. KAWAKUBO</b> , Kirchhoff elastic rods in three-dimensional space forms .....	551
<b>Y. MIZUTA and T. SHIMOMURA</b> , Sobolev embeddings for Riesz potentials of functions in Morrey spaces of variable exponent .....	583
<b>H. TAHARA and H. YAMANE</b> , Logarithmic singularities of solutions to nonlinear partial differential equations .....	603
