|                                                                                                                                         |     |
|-----------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Noël LOHOUE</b> , Estimation des fonctions d'aire sur les variétés riemanniennes à courbure non positive .....                       | 1   |
| <b>Hideki OMORI, Yoshiaki MAEDA and Akira YOSHIOKA</b> , A Poincaré-Birkhoff-Witt theorem for infinite dimensional Lie algebras .....   | 25  |
| <b>Tomotada OHTSUKI</b> , Ideal points and incompressible surfaces in two-bridge knot complements .....                                 | 51  |
| <b>Yutaka KAMIMURA</b> , An inverse problem in bifurcation theory, II .....                                                             | 89  |
| <b>Norimichi HIRANO and Noriko MIZOGUCHI</b> , Nonradial solutions of semilinear elliptic equations on annuli .....                     | 111 |
| <b>Ruishi KUWABARA</b> , Spectra and geodesic flows on nilmanifolds: Reductions of Hamiltonian systems and differential operators ..... | 119 |
| <b>Minyo KATAGIRI</b> , On the existence of Yang-Mills connections by conformal changes in higher dimensions .....                      | 139 |
| <b>Toshio HORIUCHI</b> , Notes on the mean value property for certain degenerate elliptic operators .....                               | 149 |
| <b>Kazuya HAYASIDA</b> , On some improperly posed problem for degenerate quasilinear elliptic equations .....                           | 165 |
