

## CONTENTS

<b>HideO TAMURA</b> , The asymptotic formulas for the number of bound states in the strong coupling limit .....	355
<b>Antonio Carlos ASPERTI</b> , Minimal surfaces with constant normal curvature .....	375
<b>Takashi KOMATSU</b> , Pseudo-differential operators and Markov processes .....	387
<b>Takao YAMAGUCHI</b> , A pinching problem for symmetric spaces of rank one .....	419
<b>Antonio ROS</b> , On spectral geometry of Kaehler submanifolds .....	433
<b>Hidetoshi TAHARA</b> , Singular hyperbolic systems, V. Asymptotic expansions for Fuchsian hyperbolic partial differential equations .....	449
<b>Yoshihiro MIZUTA</b> , On the behavior at infinity of logarithmic potentials .....	475
<b>Sadayoshi KOJIMA</b> , A construction of geometric structures on Seifert bered spaces ...	483
<b>Ryuichi MIZUMACHI</b> , On the asymptotic behavior of incompressible viscous uid motions past bodies .....	497
<b>Miyuki KOISO</b> , On the stability of minimal surfaces in $R^3$ .....	523
