

## CONTENTS

|  |     |
|--|-----|
| <b>Akira MIZUHARA</b> , On homogeneous $P^N$ -bundles over an abelian variety .....  | 377 |
| <b>Isao MIYADERA</b> , Generation of semi-groups of nonlinear contractions .....   | 389 |
| <b>Yoshio KATO</b> , Mixed-type boundary conditions for second order elliptic differential equations .....                     | 405 |
| <b>Kenji MARUO</b> , Integral equation associated with some non-linear evolution equation ...                                  | 433 |
| <b>Yukio HIRASHITA</b> , Periodicity and inequality .....  | 440 |
| <b>Koji UCHIDA</b> , Class numbers of cubic cyclic fields .....  | 447 |
| <b>Mitsuyoshi KATO</b> , A classification of simple spinnable structures on a 1-connected Alexander manifold .....             | 454 |
| <b>Par Masahiko SAITO</b> , Représentations unitaires monomiales d'un groupe discret, en particulier du groupe modulaire ..... | 464 |
| <b>Mitsuru NAKAI</b> , Martin boundary over an isolated singularity of rotation free density ..                                | 483 |
| <b>Mikio ISE</b> , On Thullen domains and Hirzebruch manifolds, I .....  | 508 |
| <b>Yoshimichi TSUNO</b> , On the prolongation of local holomorphic solutions of partial differential equations .....           | 523 |
| <b>Kensaku GOMI</b> , A characterization of the groups $PSL(3, 2^n)$ and $PSp(4, 2^n)$ .....                                   | 549 |
