

## CONTENTS

<b>Yukimasa OKA</b> , Uniformly hyperfinite algebras and locally compact transformation groups	357
<b>Iku NAKAMURA and Kenji UENO</b> , An addition formula for Kodaira dimensions of analytic vector bundles whose bases are Moisizson manifolds .....	363
<b>Eiji HORIKAWA</b> , On deformations of holomorphic maps I .....	372
<b>Shizuo ENDO and Takehiko MIYATA</b> , Quasi-permutation modules over finite groups	397
<b>Hirohiko SHIMA</b> , On homogeneous Kähler manifolds of solvable Lie groups .....	422
<b>Jiro WATANABE</b> , On certain nonlinear evolution equations .....	446
<b>Michihiro NAGASE</b> , On the asymptotic behavior of resolvent kernels for elliptic operators	464
<b>Yoichi MOTOHASHI</b> , On the representations of an integer as a sum of two squares and a product of four factors .....	475
<b>Sadahiro SAEKI</b> , On restriction algebras of tensor algebras .....	506
<b>Goro SHIMURA</b> , On the factors of the jacobian variety of a modular function field .....	523
<b>Koji KATAYAMA</b> , A supplement to my paper "On zeta-theta functions" .....	545
