

CONTENTS

Takesi YAMANAKA , On the uniqueness of solutions of the global Cauchy problem for a Kowalevskaja system	567
Mitsuru IKAWA , Mixed problems for hyperbolic equations of second order	580
Ken HIROSE , An investigation on degrees of unsolvability	609
Gerald D. LUDDEN , The prolongation of the holonomy group	634
Shoshichi KOBAYASHI , Irreducibility of certain unitary representations	638
Brian SMYTH , Homogeneous complex hypersurfaces	643
Hisao NAKAGAWA , Riemannian manifolds with many geodesic loops	648
Koichiro HARADA , Finite simple groups with short chains of subgroups	655
Hiroyoshi YAMAKI , A characterization of the alternating groups of degrees 12, 13, 14, 15	673
Takeshi KONDO , On finite groups with a 2-Sylow subgroup isomorphic to that of the symmetric group of degree $4n$	695
