

VOL. 19 NO. 2

APRIL, 1967

CONTENTS

Kiyoshi MOCHIZUKI , On the large perturbation by a class of non-selfadjoint operators	123
Hiroshi SATO , On the equivalence of Gaussian measures	159
Tetsuro YAMAMOTO , On the extreme values of the roots of matrices	173
Akio YOKOYAMA , On the relative class number of finite algebraic number fields	179
K. YANO and E. M. PATTERSON , Horizontal lifts from a manifold to its cotangent bundle	185
Tsunero TAKAHASHI , Hypersurface with parallel Ricci tensor in a space of constant holomorphic sectional curvature	199
Hideki OMORI , Isometric immersions of Riemannian manifolds	205
Noboru TANAKA , On generalized graded Lie algebras and geometric structures I	215
Rene THOM , On some ideals of differentiable functions	255
