

CONTENTS

Takashi KARUBE , On the local cross-sections in locally compact groups.	343
Tadao KUBO , Hyperbolic transnite diameter and some theorems on analytic functions in an annulus.	348
Masao HASHIGUCHI , On parallel displacements in Finsler spaces.	365
Yukihiro KODAMA , On a problem of Alexandro concerning the dimension of product spaces I.	380
Yoshimichi MIBU , On measures invariant under given homeomorphism group of a uniform space. (A generalization of Haar measure.)	405
Kentaro YANO , Harmonic and Killing tensor elds in Riemannian spaces with boundary.	430
Tamio ONO , Local theory of rings of operators II.	438
