

## CONTENTS

<b>S. FUJIIÉ, A. LAHMAR-BENBERNOU and A. MARTINEZ</b> , Width of shape resonances for non globally analytic potentials .....	1
<b>O. IKAWA</b> , The geometry of symmetric triad and orbit spaces of Hermann actions .....	79
<b>J. BRENDLE and B. LÖWE</b> , Eventually different functions and inaccessible cardinals .....	137
<b>F. MORISHITA and O. SAEKI</b> , Height functions on surfaces with three critical values .....	153
<b>R. FARWIG, Š. NEČASOVÁ and J. NEUSTUPA</b> , Spectral analysis of a Stokes-type operator arising from flow around a rotating body .....	163
<b>S. FUKASAWA</b> , Classification of plane curves with infinitely many Galois points ..	195
<b>T. KIKUTA and S. NAGAOKA</b> , On Hermitian modular forms mod $p$ .....	211
<b>H. MIZUTANI</b> , Dispersive estimates and asymptotic expansions for Schrödinger equations in dimension one .....	239
<b>R. KAJIKIYA</b> , Sublinear elliptic equations with singular coefficients on the boundary .....	263
<b>X. T. DUONG and L. YAN</b> , Spectral multipliers for Hardy spaces associated to non-negative self-adjoint operators satisfying Davies-Gaffney estimates .....	295
<b>R. LAHIANI and C. MOLITOR-BRAUN</b> , A smooth family of intertwining operators .....	321
