CONTENTS

Vol. 17, No. 1, March 1965

MITSURU OZAWA, On the sixth coefficient of univalent function.	1
YOSHIKAZU HIRASAWA, On an estimate for semi-linear elliptic differential equations of the second order with Dini-continuous coefficients.	10
YŪSAKU KOMATU, Supplement to conformal mapping onto polygons bounded by spiral arcs.	27
KEN-ICHI YOSHIHARA, Coding theorems for the compound semi-continuous memoryless channels.	30
JOJI KAJIWARA, Note on a Cousin-II domain over C^2	44
KAZUTOMO KAWAMURA, Asymptotic behavior of sequential design with costs of experiments. (The case of normal distribution.)	48
KOICHI OGIUE, On fiberings of almost contact manifolds.	53
