

# NOTRE DAME JOURNAL OF FORMAL LOGIC

VOLUME 32, 1992

## VOLUME CONTENTS

<b>Abian, Alexander and Wael A. Amin</b> , The cardinality of powersets in finite models of the powerset axiom	290–294
<b>Amin, Wael A. and Alexander Abian</b> , The cardinality of powersets in finite models of the powerset axiom	290–294
<b>Avron, Arnon</b> , Relevance and paraconsistency – A new approach. Part III: Cut-free Gentzen-type systems	147–160
<b>Azzouni, Jody</b> , A simple axiomatizable theory of truth	458–493
<b>Barba Escriba, Juan</b> , A multidimensional modal translation for a formal system motivated by situation semantics	598–608
<b>Barbanel, Julius</b> , Almost hugeness and a related notion	255–265
<b>Beeson, Michael J.</b> , Book review: <i>Constructivism in Mathematics</i> , Vols. 1 and 2 by A. S. Troelstra and D. van Dalen	320–322
<b>Biacino, Loredana and Giangiacomo Gerla</b> , Connection structures	242–247
<b>Blecksmith, Richard and Gilbert Null</b> , Matrix representation of Husserl’s part-whole-foundation theory	87–111
<b>Bressan, Aldo</b> , New semantics for the extensional but hyper-intensional Part $\mathcal{L}_\alpha$ of the modal sense language $\mathcal{SL}_\alpha'$	47–86
<b>Carbone, Alessandra</b> , Provable fixed points in $I\Delta_0 + \Omega_1$	562–572
<b>Carnes, Robert D. and Philip L. Peterson</b> , Intermediate quantifiers versus percentages	294–306
<b>Dosen, Kosta</b> , Ancestral Kripke models and nonhereditary Kripke models for the Heyting propositional calculus	580–597
<b>Downey, Rod</b> , On $\Pi_1^0$ classes and their ranked points	499–512
<b>Errata</b>	651
<b>Forrest, Peter</b> , Book review: <i>Parts of Classes</i> , by David Lewis	494–497
<b>Gerla, Giangiacomo and Loredana Biacino</b> , Connection structures	242–247
<b>Habart, Karol</b> , Bounds in weak truth-table reducibility	233–241

<b>Hyttinen, Tapani</b> , Preservation by homomorphisms and infinitary languages	167–172
<b>Jin, Renling</b> , Some independence results related to the Kurepa trees	448–457
<b>Kaye, Richard</b> , On cofinal extensions of models of fragments of arithmetic	399–408
<b>Kelly, Charles</b> , The logic of the liar from the standpoint of Aristotelian syllogistic	129–146
<b>Kossak, Roman and James H. Schmerl</b> , Minimal satisfaction classes with an application to rigid models of Peano arithmetic	392–398
<b>Kotlarski, Henryk</b> , Full satisfaction classes: A survey	573–579
<b>Leary, Christopher</b> , Pleasant ideals	612–617
<b>Leblanc, Hugues and Peter Roeper</b> , Indiscernibility and identity in probability theory	1–46
<b>Leblanc, Hugues, Peter Roeper, Michael Thau, and George Weaver</b> , Henkin's completeness proof: Forty years later	212–232
<b>Lewin, Renato, Irene Mikenberg, and M. Gloria Schwarze</b> , $C_1$ is not algebraizable	609–611
<b>Macpherson, Dugald</b> , Finite axiomatizability and theories with trivial algebraic closure	188–192
<b>Marker, David</b> , End extensions of normal models of open induction	426–431
<b>McCarty, David Charles</b> , Polymorphism and apartness	513–532
<b>McCarty, David Charles</b> , Incompleteness in intuitionistic metamathematics	323–358
<b>Mikenberg, Irene, Renato Lewin and M. Gloria Schwarze</b> , $C_1$ is not algebraizable	609–611
<b>Newelski, Ludomir</b> , On type definable subgroups of a stable group	173–187
<b>Null, Gilbert and Richard Blecksmith</b> , Matrix representation of Husserl's part-whole-foundation theory	87–111
<b>Orilia, Francesco</b> , Type-free property theory, exemplification and Russell's paradox	432–447
<b>Peterson, Philip L. and Robert D. Carnes</b> , Intermediate quantifiers versus percentages	294–306
<b>Pizzi, Claudio</b> , Decision procedures for logics of consequential implication	618–638

<b>Priest, Graham</b> , Intentional paradoxes	193–211
<b>Purdy, William C.</b> , A logic for natural language	409–425
<b>Reyes, Gonzalo E.</b> , A Topos-theoretic approach to reference and modality	359–391
<b>Roeper, Peter and Hugues Leblanc</b> , Indiscernibility and identity in probability theory	1–46
<b>Roeper, Peter, Hugues Leblanc, Michael Thau, and George Weaver</b> , Henkin’s completeness proof: Forty years later	212–232
<b>Ruitenburg, Wim</b> , Inequality in constructive mathematics	533–553
<b>Schlechta, Karl</b> , Theory revision and probability	307–319
<b>Schmerl, James H. and Roman Kossak</b> , Minimal satisfaction classes with an application to rigid models of Peano arithmetic	392–398
<b>Schwarze, M. Gloria, Renato Lewin and Irene Mikenberg</b> , $C_1$ is not algebraizable	609–611
<b>Sorbi, Andrea</b> , Embedding Brouwer algebras in the Medvedev lattice	266–275
<b>Thau, Michael, Hugues Leblanc, Peter Roeper, and George Weaver</b> , Henkin’s completeness proof: Forty years later	212–232
<b>Thompson, Bruce R.</b> , Why is conjunctive simplification invalid?	248–254
<b>Tiles, Mary</b> , Book review: <i>Philosophical Introduction to Set Theory</i> , by Stephen Pollard	161–166
<b>Toffalori, Carlo</b> , Classfying pairs of equivalence relations	637–650
<b>Toffalori, Carlo</b> , Stability for pairs of equivalence relations	112–128
<b>Visser, Albert</b> , On the $\Sigma_1^0$ -conservativity of $\Sigma_1^0$ -completeness	554–561
<b>Weaver, George, Hugues Leblanc, Michael Thau, and Peter Roeper</b> , Henkin’s completeness proof: Forty years later	212–232
<b>Willing, Anthony</b> , Buridan’s divided modal syllogistic	276–289
