# EDITORIAL MESSAGES

By Paul D. Humke and Clifford E. Weil

**Thanks.** Once again, the Managing Editors wish to thank Gabriela Ene, who typed manuscripts for this issues as she has done for so many past issues.

**Assistant Managing Editors.** We welcome three new Assistant Managing Editors, who joined the Editorial Staff this Fall. They are Caroline Beyer, Aaron Brakoniecki and Chelsea Walton, all of whom are sophomores at Michigan State University majoring in Mathematics. They were all thrilled and inspired to receive mail addressing them as Professor or Dr. We look forward to having the services of these three students throughout their careers at Michigan State.

**Editorial Board.** Professor James Foran has asked to be relieved of his duties as a Contributing Editor due to his decision to retire from his position at the University of Missouri. Jim was involved in founding the *Real Analysis Exchange* and has been a Contributing Editor since the positions were created.

We are happy to announce the addition of two new Contributing Editors. In alphabetical order, they are first Stephen Jackson from the University of North Texas. He will handle submissions in Descriptive Set Theory, Logic and related subjects. The second is Bernd Kirchheim from Oxford University in the U.K. He will manage submissions in Calculus of Variations, Quasiconformal Analysis and related areas. We are very pleased that both of these prominent mathematicians have accepted our invitation to join the Editorial Board.

**MSU Press.** If you are contemplating writing a textbook on a subject in mathematics, or a memoir, please consider using the Michigan State University Press as your publisher. The MSU Press is a non-profit organization affiliated with Michigan State University that offers superior service and much lower costs than commercial publishers, along with complimentary advertising in Real Analysis Exchange.

**Website.** We encourage you to visit our Website and invite your feedback regarding the content. The address is:
