

ROCKY MOUNTAIN JOURNAL OF MATHEMATICS

Volume 23

Spring 1993

Number 2

CONTENTS

On Weakly Lindelof Banach Spaces
BY S. ARGYROS AND S. MERCOURAKIS 395

Line Bundles and Non-Algebraically Closed Fields
BY E. BALLICO 447

Two Weighted (L^p, L^q) Estimates for
the Fourier Transform
BY S. BLOOM, W.B. JURKAT AND G. SAMPSON 451

Limits of Weighted Splines Based on Piecewise
Constant Weight Functions
BY L. BOS AND K. SALKAUSKAS 483

Some Examples of Mixing Random Fields
BY RICHARD C. BRADLEY 495

Modifications of Toeplitz Matrices: Jump Functions
BY ALICIA CACHAFEIRO AND FRANCISCO MARCELLAN 521

Non-homeomorphic Disjoint Spaces whose Union is ω^*
BY W.W. COMFORT AND AKIO KATO 533

Hypergeometric Functions over Finite Fields
and Representations of $SL(2, q)$
BY JOHN GREENE 547

Hall Subgroups of Order not Divisible by 3
BY FLETCHER GROSS 569

Hölder Estimates for Local Solutions for $\bar{\partial}$ on a
Class of Nonpseudoconvex Domains
BY LOP-HING HO 593

Application of the Monotone-Iterative Techniques of
V. Lakshmikantham for Solving the Initial Value
Problem for Impulsive Differential-Difference Equations
BY S.G. HRISTOVA AND D.D. BAINOV 609

On a Classical Boundary Value Problem
Involving a Small Parameter
BY STEPHEN J. KIRSCHVINK 619

Dentability Indices and Locally Uniformly
Convex Renormings
BY GILLES LANCIEN 635

CONTENTS CONTINUED ON BACK PAGE

The Moduli of Weierstrass Fibrations over \mathbf{P}^1 : Rationality BY PABLO LEJARRAGA	649
Stability Analysis of Impulsive System Via Perturbing Families of Lyapunov Functions BY XINZHI LIU	651
A Note on Dedekind Non-D-Rings BY K. ALAN LOPER	671
Analytic Continuation of Functions Given by Continued Fractions, Revisited BY LISA LORENTZEN	683
Finite Groups Acting on Bordered Surfaces and the Real Genus of a Group BY COY L. MAY	707
Reducible Epidemics: Choosing Your Saddle BY J. RADCLIFFE AND L. RASS	725
Extensions and Internal Structure BY ELLEN E. REED	753
The Generalized Gauss Map and Applications BY JAIME B. RIPOLL AND MARCOS SEBASTIANI	767
Fourth Order Difference Equations: Oscillation and Nonoscillation BY W.E. TAYLOR, JR.	781
