

# STATISTICAL SCIENCE

a review journal of the institute of mathematical statistics

**Volume 10**

**Number 1**

**February 1995**

## **BAYESIAN COMPUTATION AND STOCHASTIC SYSTEMS**

by Julian Besag, Peter Green, David Higdon and  
Kerrie Mengersen

## **SELF-SIMILARITY IN HIGH-SPEED PACKET TRAFFIC: ANALYSIS AND MODELING OF ETHERNET TRAFFIC MEASUREMENTS**

by Walter Willinger, Murad S. Taqqu, Will E. Leland  
and Daniel V. Wilson

## **SURVIVAL IN DYNAMIC ENVIRONMENTS**

by Nozer D. Singpurwalla

**and Conversations with HIROTUGU AKAIKE  
and FRANK PROSCHAN**

---

**PAST EXECUTIVE EDITORS**

Morris H. DeGroot, 1986–1988

Carl N. Morris, 1989–1991

Robert E. Kass, 1992–1994

---

The aim of *Statistical Science* is to present the full range of contemporary statistical thought at a technical level accessible to the broad community of practitioners, teachers, researchers and students of statistics and probability.

The journal will publish discussions of methodological and theoretical topics of current interest and importance, surveys of substantive research areas with promising statistical applications, comprehensive book reviews, discussions of classic articles from the statistical literature and interviews with distinguished statisticians and probabilists.

**SUBMISSION POLICY**

*Statistical Science* welcomes the submission of expository, review and survey papers in all areas of the theory, methodology and applications of statistics and probability. Articles that synthesize research that has been published in diverse sources or that has been developed from diverse points of view are especially valuable. Please see the editorial in the February 1992 issue (vol. 7, no. 1) for additional description of the goals of *Statistical Science*.

Authors should submit four nonreturnable copies of any manuscript to be considered for publication in *Statistical Science*. The manuscript should be typed on  $8\frac{1}{2} \times 11$ -inch white paper, on one side only, and double-spaced throughout, including the references, with margins of at least  $1\frac{1}{2}$  inches on all four sides. Pages should be numbered consecutively. The manuscript should contain an abstract of 200 or fewer words, followed by approximately 5 or 6 key words or phrases. A short author's note providing the name, address, present position or rank and affiliation of each author should also be included. Additional guidelines for authors appear in the November 1994 issue. Copies should be mailed, first class, to:

Professor Paul Switzer  
Executive Editor, *Statistical Science*  
Department of Statistics  
Stanford University  
Stanford, California 94305-4065

**In addition**, if possible, a L<sup>A</sup>T<sub>E</sub>X input file should be sent by electronic mail to [statsci@playfair.stanford.edu](mailto:statsci@playfair.stanford.edu). If electronic mail is not feasible, a standard floppy disk may be submitted by first-class mail. Manuscripts submitted in the L<sup>A</sup>T<sub>E</sub>X format should use the "article" style and should not use any special macros.

A condition of submission is that the manuscript has not previously been published and is not simultaneously being considered for publication elsewhere. All authors must transfer copyright to the Institute prior to publication. Page charges are \$45 per printed page. Payment of some or all of the estimated page charges associated with articles is strongly encouraged. The editorial review of articles and administration of page charges are completely separate activities. Manuscripts are reviewed and accepted prior to determining whether page charges will be paid. Corresponding authors receive 25 gratis offprints. Offprints of discussion articles include the main article(s), discussion(s) and rejoinder(s) as a package. Corresponding authors of main articles receive 25 gratis offprints; corresponding discussants receive 10 gratis offprints. Additional offprints may be purchased by using the IMS Offprint Purchase Order Form accompanying the galley. Copyright transfer, page charges and offprints are the responsibility of the IMS Business Manager.

In This Issue .....	1
Bayesian Computation and Stochastic Systems	
<i>Julian Besag, Peter Green, David Higdon and Kerrie Mengersen</i>	3
Comment .....	<i>Arnoldo Frigessi</i> 41
Comment .....	<i>Alan E. Gelfand and Bradley P. Carlin</i> 43
Comment .....	<i>Charles J. Geyer</i> 46
Comment .....	<i>G. O. Roberts, S. K. Sahu and W. R. Gilks</i> 49
Comment .....	<i>Wing Hung Wong</i> 52
Comment: Extracting More Diagnostic Information from a Single Run Using Cusum Path Plot .....	<i>Bin Yu</i> 54
Rejoinder .....	<i>Julian Besag, Peter Green, David Higdon and Kerrie Mengersen</i> 58
Self-Similarity in High-Speed Packet Traffic:	
Analysis and Modeling of Ethernet Traffic Measurements	
<i>Walter Willinger, Murad S. Taqqu, Will E. Leland and Daniel V. Wilson</i>	67
Survival in Dynamic Environments .....	<i>Nozer D. Singpurwalla</i> 86
A Conversation with Hirotugu Akaike .....	<i>David F. Findley and Emanuel Parzen</i> 104
A Conversation with Frank Proschan	
<i>Myles Hollander, with Albert W. Marshall in attendance</i>	118
Acknowledgment of Referees' Services .....	134
Publications Received .....	135

**Statistical Science** (ISSN 0883-4237), Volume 10, Number 1, February 1995. Published quarterly for \$75 per year by the Institute of Mathematical Statistics, 3401 Investment Boulevard #7, Hayward, California 94545-3819-18. Second-class postage paid at Hayward, California and at additional mailing offices. **POSTMASTER:** Send address changes to *Statistical Science*, Institute of Mathematical Statistics, 3401 Investment Boulevard #7, Hayward, California 94545-3819-18.
