

STATISTICAL SCIENCE

a review journal of the institute of mathematical statistics

Volume 7

Number 3

August 1992

Featuring

**Sue Leurgans and Robert T. Ross on
MULTILINEAR MODELS IN SPECTROSCOPY**

Joseph W. Duncan and William C. Shelton on
U.S. GOVERNMENT CONTRIBUTIONS
TO STATISTICS

**Two articles on Fisher's Fiducial Argument
by Teddy Seidenfeld and S. L. Zabell**

and conversations with ESTHER SEIDEN and
HERBERT SOLOMON

EXECUTIVE EDITOR

Robert E. Kass
Carnegie Mellon University

EDITORIAL ASSISTANT

Heidi Rhodes

EDITORS

Leon Jay Gleser
University of Pittsburgh

David Griffeath
University of Wisconsin

Terry Speed
University of California, Berkeley

Ramanathan Gnanadesikan
Rutgers University

Nancy Reid
University of Toronto

Michael Titterington
University of Glasgow

MANAGING EDITOR

Roger L. Berger
North Carolina State University

PRODUCTION EDITOR

Patrick Kelly

PAST EXECUTIVE EDITORS

Morris H. DeGroot, 1986–1988 Carl N. Morris, 1989–1991

The aim of *Statistical Science* is to present the full range of contemporary statistical thought at a technical level accessible to the broad community of practitioners, teachers, researchers and students of statistics and probability.

The journal will publish discussions of methodological and theoretical topics of current interest and importance, surveys of substantive research areas with promising statistical applications, comprehensive book reviews, discussions of classic articles from the statistical literature and interviews with distinguished statisticians and probabilists.

SUBMISSION POLICY

Statistical Science welcomes the submission of expository, review, and survey papers in all areas of the theory, methodology and applications of statistics and probability. Articles that synthesize research that has been published in diverse sources or that has been developed from diverse points of view are especially valuable. Please see the editorial in the February 1992 issue (vol. 7, no. 1) for additional description of the goals of *Statistical Science*.

Four nonreturnable copies of any manuscript submitted for consideration are requested for the reviewing process. Copies should be mailed first class to:

Professor Robert E. Kass
Executive Editor, *Statistical Science*
Department of Statistics
Carnegie Mellon University
Pittsburgh, PA 15213-3890
statsci@stat.cmu.edu

The manuscripts should be typed on 8½ × 11-inch white paper, on one side only, and double-spaced throughout, including the references, with margins of at least 1½ inches on all four sides. Pages should be numbered consecutively. The manuscript should contain an abstract of 200 or fewer words, followed by approximately 5 or 6 key words or phrases. A short author's note providing the name, address, present position or rank and affiliation of each author should also be included.

A condition of submission is that the manuscript has not previously been published and is not simultaneously being considered for publication elsewhere.

All authors must transfer copyright to the Institute prior to publication.

Page charges are \$45 per printed page. Payment of some or all of the estimated page charges associated with articles is strongly encouraged. The editorial review of articles and administration of page charges are completely separate activities. Manuscripts are reviewed and accepted prior to determining whether page charges will be paid.

Corresponding authors receive 25 gratis offprints. Offprints of discussion articles include the main article(s), discussion(s) and rejoinder(s) as a package. Corresponding authors of main articles receive 25 gratis offprints; corresponding discussants receive 10 gratis offprints. Additional offprints may be purchased by using the IMS Offprint Purchase Order Form accompanying the galley.

Copyright transfer, page charges and offprints are the responsibility of the IMS Business Manager.
