

## SUT JOURNAL OF MATHEMATICS

---

Volume 56, Number 1

June 2020

---

### CONTENTS

Masaki Kawamoto:

$L^2$ -properties for linearized KdV equation around small solutions ..... 1

Genki Koda:

Representation of the norm of ideals by quadratic forms with congruence conditions ..... 21

Kengo Fujisawa and Kouji Tahata:

Asymmetry model based on  $f$ -divergence and orthogonal decomposition of symmetry for square contingency tables with ordinal categories ..... 39

Jay Prakash Singh and Kingbawl Lalnunsiami:

Certain curvature properties of  $N(k)$ -quasi Einstein manifolds ..... 55
