Yasushi Ishikawa: Antilocality and one-sided antilocality for stable generators on the line.....	1
Yoshihiro Ohnita and Hiroyuki Tasaki: Uniqueness of certain 3-dimensional homologically volume minimizing submanifolds in compact simple Lie groups .....	11
Seiichiro Wakabayashi; Remarks on hyperbolic polynomials .....	17
Koichiro Ohtake and Hiroshi Fukushima: A remark on Higman's result about separable algebras .....	29
Jan Chabrowski: On traces of solutions of linear elliptic systems and their application to the Dirichlet problem .....	35
Fumiko Ohtsuka: Compact 2-transnormal hypersurface in a Kaehler manifold of constant holomorphic sectional curvature .....	47
Taka-aki Shiraishi: Optimum properties of the Wilcoxon signed rank test under a Lehmann alternative .....	57
Piotr Dowbor and Andrzej Skowroński: On the representation type of locally bounded categories .....	63
Masami Sakai: Nowhere densely generated properties in topological measure theory .....	73
Masaaki Umehara: Hypersurfaces with harmonic curvature .....	79
Kenji Nagasaka: Non-normal numbers to different bases and their Hausdorff dimension .....	89
Taka-aki Shiraishi: Asymptotic powers of one- and two-sample rank tests against location-alternatives including contamination .....	101
K. R. Unni and C. Puttamadaiah: On joint numerical ranges and joint normaloids in a C*-algebra .....	111
Sakae Fuchino: On the categoricity theorem in $L_{\omega_1}$ .....	117
Hisaaki Fujita: A remark on tiled orders over a local Dedekind domain .....	121
Shuichi Kawashima and Yasushi Shizuta: Magnetohydrodynamic approximation of the complete equations for an electromagnetic fluid .....	131
Jun Morita: A transformation group of the Pythagorean numbers .....	151
Yoshihiro Abe: Notes on $P_\lambda$ and $[\lambda]^c$ .....	155
Hiroyuki Tasaki and Osami Yasukura: $R$ -spaces associated with a Hermitian symmetric pair .....	165
Edoardo Ballico: On $q$ -pseudoconvex open sets in a complex space.....	171
Kazunori Sakano: Classical quotient rings of trivial extensions.....	175
