Kubota, T: Obituary note Matsusaburô Fujiwara	1
The list of mathematical papers by Prof. T. Kubota	3
Matsuyama, N: Linear topological spaces and its pseudo-norms ..	14
Matsuyama, N: A note on general topological spaces.....	22
Tachibana, S: On the normal coordinate of Riemann space, whose holonomy group fixes a point	26
Sasaki, S. and K. Yano: On the structure of spaces with normal projective connexions whose groups of holonomy fix a hiper- quadric	31
Matsuyama, N: Notes on Fourier Analysis (XIV): Absolute Cesàro summability of Fourier series	40
Yano, S: Notes on Fourier Analysis (XV): On the absolute conve- rgence of trigonometrical series	46
Yano, S: Notes on Fourier Analysis(XVII): The integrated Lipschitz condition of a function, and Fejér mean of Fourier series	50
Sunouchi, G: Notes on Forier Analysis(XVIII): Absolute summabiity of series with constant terms	57
Nakamura, M: Notes on Banach Space (VIII): A generalization of Silov's theorem	66
Tsuchikura, T: Quelques propositions équivalentes à l'hypothèse du continu	69
Fukamiya, M: Topological method for Tauberian theorem.....	77
Otsuki, T: On the space with affine connection which has no closed path	88
Matsuyama, N: Notes on Fourier Analysis (XX): On the Riesz logarithmic summability of the derived Fourier series	91
Sunouchi, G and Utagawa, M: The generalized Perron integrals	95
Nakamura, M: Notes on Banach Space (IX): The Vitali-Hahn- Saks theorem and K-spaces	100
