JOURNAL OF INTEGRAL EQUATIONS
AND APPLICATIONS
Volume 25, Number 4, Winter 2013

VOLUME INDEX

Abbas, Saïd, *Existence and stability of nonlinear, fractional order Riemann-Liouville Volterra-Stieltjes multi-delay integral equations*, 143.
Agyingi, Ephraim O., *Derivation of variation of parameters formulas for non-linear Volterra equations, using a method of embedding*, 159.
Appell, J., *Locally Lipschitz composition operators and applications to nonlinear integral equations*, 321.
Baker, Christopher T.H., see Agyingi, Ephraim O.
Benchohra, Mouffak, see Abbas, Saïd.
Burton, T.A., *Singular integro-differential equations with small kernels*, 1.
Cossonnière, Anne, *Surface integral formulation of the interior transmission problem*, 341.
Costarelli, Danilo, *Solving Volterra integral equations of the second kind by sigmoidal functions approximation*, 193.
Dai, Zhewei, *Local regularization methods for inverse Volterra equations applicable to the structure of solid surfaces*, 223.
Dévoué, Victor, *Generalized solution to a non Lipschitz integral equation*, 455.
Domínguez, Víctor, *Some properties of layer potentials and boundary integral operators for the wave equation*, 253.
Dos Santos, José Paulo C., see Henríquez, Hernán R.
Grammont, Laurence, *Modified projection and the iterated modified projection methods for nonlinear integral equations*, 481.
Guanda, N., see Appell, J.
Guo, Hailong, see Huang, Can.
Haddar, Houssem, see Cossonnière, Anne.
Huang, Can, *A spectral collocation method for eigenvalue problems of compact integral operators*, 79.
Henríquez, Hernán R., *Differentiability of solutions of abstract neutral integro-differential equations*, 47.
Kirk, C.M., *A system of nonlinear Volterra equations with blow-up solutions*, 377.
Kulkarni, Rekha P., see Grammont, Laurence.
Lanza De Cristoforis, Massimo, *A real analyticity result for a nonlinear integral operator*, 21.
Li, Gang, see Zhu, Tao.
Li, Xiuwen, see Liu, Zhenhai.
Liu, Ji-Chuan, see Qin, Hai-Hua.
Liu, Zhenhai, *Controllability of nonlinear fractional impulsive evolution systems*, 395.
Long, Nguyen Thanh, see Ngoc, Le Thi Phuong.
Lysakova, Yu., see Appell, J.
Maleknejad, K., *A sinc quadrature method for the Urysohn integral equation*, 407.
Musolino, Paolo, see Lanza De Cristoforis, Massimo.
Nedaiasl, K., see Maleknejad, K.
Ngoc, Le Thi Phuong, *Solvability and existence of asymptotically stable solutions for a Volterra-Hammerstein integral equation on an infinite interval*, 295.
Olmstead, W.E., see Kirk, C.M.
Purnaras, I.K., see Burton, T.A.
