

S U M M E R   S Y M P O S I U M

The real variable aspects of other branches of analysis will be the theme of a conference to be held on the campus of Michigan State University from June 25 to June 28, 1980. Giving two hour lectures each on how real analysis relates to their specialities will be: Professor Frederick W. Gehring, Professor Richard F. Gundy, and Professor Antoni Zygmund. There will also be time for the presentation of papers consistent with the theme, which are hereby solicited. To submit such papers or for further information contact:

Clifford E. Weil  
Department of Mathematics  
Michigan State University  
East Lansing, MI 48823

Phone: 517-353-8489

Some support for participants will be available.
