

# ERRATA

In a letter dated 15 May, 1990 Professor Rae Michael Shortt pointed out an error in his paper, "A criterion for measurability of countable-to-one functions" which appeared in Volume 14 of the *Real Analysis Exchange*, pages 498-500. Theorem 1.3 should end with,

"the set  $f(A)$  be the image of  $A$  under some countable-to-one measurable function  $g_A : X \rightarrow \mathfrak{R}$ ."

Professor Shortt wishes to thank Professor K. P. S. Bhaskara Rao for pointing out this error.
