

TABLE OF CONTENTS

Editorial	105
Terry Goodman	
An Application of the Unique Continuation Property to the Computation of a Fourier Transform	107
Joseph Bennis	
Generating Functions: Applications and Techniques	109
Philip M. Tsang and Shing S. So	
Some Properties Related to Dendritic Spaces	116
David John	
Mathematics Placement and Assessment at Central Missouri State University	121
Edward Davenport and Marte Carter	
A Nowhere Analytic C^∞ Function	132
Kent G. Merryfield	
A Quadratic Programming Approach for Solving Discriminant Analysis Problems	139
John Maloney and Yi-Hsin Liu	
Problems	145
Solutions	147
Announcements	152
