

# ADVANCES IN DIFFERENTIAL EQUATIONS

Volume 17, Numbers 1-2

January/February 2012

---

<b>Marina Ghisi</b> , Hyperbolic-parabolic singular perturbation for mildly degenerate Kirchhoff equations with weak dissipation .....	1
<b>Giuseppe Maria Coclite and Kenneth Hvistendahl Karlsen</b> , On an initial-boundary value problem for the hyperelastic rod wave equation ..	37
<b>M.L. Oliveira, M.R. Clark, and A.O. Marinho</b> , On a nonlinear generalized thermoelastic system with obstacle .....	75
<b>Mohammad A. Rammaha and Zahava Wilstein</b> , Hadamard well-posedness for wave equations with p-Laplacian damping and supercritical sources ..	105
<b>Andrea Fugazzola</b> , Reverse Hölder inequalities and higher integrability for subcritical parabolic equations .....	151
<b>Leonardo Kosloff and Tomas Schonbek</b> , On the Laplacian and fractional Laplacian in an exterior domain .....	173
