

ADVANCES IN DIFFERENTIAL EQUATIONS

Volume 24, Numbers 5-6

May/June 2019

Mathias Nikolai Arnesen , Non-uniform dependence on initial data for equations of Whitham type	257
Hartmut Pecher , Low regularity local well-posedness for the higher-dimensional Yang-Mills equation in Lorenz gauge	283
Katsunori Gunji , L^2 representations of the Second Variation and Łojasiewicz-Simon gradient estimates for a decomposition of the Möbius energy	321
