

ADVANCES IN DIFFERENTIAL EQUATIONS

Volume 25, Numbers 3-4

March/April 2020

| | |
|---|-----|
| Daomin Cao, Jinchun He, Haoyuan Xu, and Meihua Yang, On ground state of fractional spinor Bose Einstein condensates | 105 |
| Xinfu Li, Shiwang Ma, and Guang Zhang, Solutions to upper critical fractional Choquard equations with potential | 135 |
| Rui Yang and Yong-Hoon Lee, Bifurcation of positive radial solutions for a prescribed mean curvature problem on an exterior domain | 161 |
| Bin Ge and Li-Yan Wang, Infinitely many solutions for a class of superlinear problems involving variable exponents | 191 |
