Submission of manuscripts prepared using \TeX is encouraged. Use of $\mathcal{A}\mathcal{M}\mathcal{S}\text{-}\text{\TeX}$ version 2.0 or later with the `amspt` style file will speed up the production process considerably. After acceptance of the manuscript the author will receive "Instructions for electronic submission of manuscripts to Arkiv för matematik". A copy of this document can be obtained by request to the address below, or to the e-mail address `arkiv@m1.kva.se`.

As a service to *Mathematical Reviews* and *Zentralblatt für Mathematik* authors are asked to provide a primary and a secondary classification, using the 1991 Mathematics Subject Classification, a list of *key words and phrases*, taken from the manuscript, and describing the subject matter of the paper, and a short abstract.

Fifty free reprints will be supplied to each author of a paper.
