

# THE ANNALS of APPLIED PROBABILITY

AN OFFICIAL JOURNAL OF THE  
INSTITUTE OF MATHEMATICAL STATISTICS

## Articles

The trouble with diversity: Fork—Join networks with heterogeneous customer population . . . . .	VIÊN NGUYEN	1
On the convergence of multiclass queueing networks in heavy traffic . . . . .	J. G. DAI AND VIÊN NGUYEN	26
Optimization of multiclass queueing networks: Polyhedral and nonlinear characterizations of achievable performance . . . . .	DIMITRIS BERTSIMAS, IOANNIS CH. PASCHALIDIS AND JOHN N. TSITSIKLIS	43
Greedy lattice animals II: Linear Growth . . . . .	ALBERTO GANDOLFI AND HARRY KESTEN	76
Linear extensions of a random partial order . . . . .	NOGA ALON, BELA BOLLOBÁS, GRAHAM BRIGHTWELL AND SVANTE JANSON	108
Stability of generalized Jackson networks. . . . .	S. P. MEYN AND D. DOWN	124
State-dependent criteria for convergence of Markov chains . . . . .	SEAN P. MEYN AND R. L. TWEEDIE	149
Regular variation in the tail behaviour of solutions of random difference equations . . . . .	D. R. GREY	169
General branching processes in varying environment . . . . .	HARRY COHN AND PETER JAGERS	184
A short proof of the Gittins index theorem . . . . .	JOHN N. TSITSIKLIS	194
A phase transition for the score in matching random sequences allowing deletions . . . . .	RICHARD ARRATIA AND MICHAEL S. WATERMAN	200
A problem of singular stochastic control with discretionary stopping . . . . .	M. H. A. DAVIS AND M. ZERVOS	226
On the relationship between fractal dimension and fractal index for stationary stochastic processes . . . . .	PETER HALL AND RAHUL ROY	241
<b>Correction</b>		
First passage percolation for random coloring of $\mathbb{Z}^d$ . . . . .	L. R. G. FONTES AND CHARLES M. NEWMAN	254

# INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

*The purpose of the Institute is to foster the development and dissemination of the theory and applications of statistics and probability.*

---

## OFFICERS AND EDITORS

- President:** Stephen M. Stigler, Department of Statistics, University of Chicago, 5734 University Avenue, Chicago, Illinois 60637-1546
- President-Elect:** David R. Brillinger, Department of Statistics, University of California, Berkeley, California 94720-0001
- Past President:** Lawrence D. Brown, Department of Mathematics, White Hall, Cornell University, Ithaca, New York 14853-7901
- Executive Secretary:** Hari G. Mukerjee, Department of Mathematics and Statistics, Wichita State University, Wichita, Kansas, 67208-0033
- Treasurer:** Jessica Utts, Division of Statistics, University of California, Davis. *Please send correspondence to:* IMS Business Office, 3401 Investment Boulevard #7, Hayward, California 94545
- Program Secretary:** Iain M. Johnstone, Department of Statistics, Sequoia Hall, Stanford University, Stanford, California 94305-4065
- Editor, *The Annals of Statistics*:** Michael Woodroffe, Department of Statistics, Mason Hall, University of Michigan, Ann Arbor, Michigan 48109-1027
- Editor, *The Annals of Probability*:** James W. Pitman, Department of Statistics, University of California, Berkeley, California, 94720-0001
- Editor, *The Annals of Applied Probability*:** Richard L. Tweedie, Department of Statistics, Colorado State University, Fort Collins, Colorado, 80523
- Executive Editor, *Statistical Science*:** Robert E. Kass, Department of Statistics, Carnegie Mellon University, Pittsburgh, Pennsylvania 15213
- Editor, *The IMS Bulletin*:** Susan R. Wilson, Centre for Mathematics and its Applications, Australian National University, Canberra ACT 0200, Australia
- Editor, *IMS Lecture Notes—Monograph Series*:** David Ruppert, School of Operations Research and Industrial Engineering, E & TC Building, Cornell University, Ithaca, New York, 14853-7501
- Managing Editor / Statistics:** John R. Collins, Department of Mathematics and Statistics, University of Calgary, 2500 University Drive NW, Calgary, Alberta, Canada T2N 1N4
- Managing Editor / Probability:** Paul J. Smith, Director Statistics Laboratory, Department of Mathematics, University of Maryland, College Park, Maryland, 20742

---

**Journals.** The scientific journals of the Institute are *The Annals of Applied Probability*, *The Annals of Probability*, *The Annals of Statistics* and *Statistical Science*. The news organ of the Institute is *The Institute of Mathematical Statistics Bulletin*.

**Individual and Organizational Memberships.** All *individual members* pay basic membership dues of \$50. Each regular member must elect to receive at least one scientific journal for an additional amount, as follows: *The Annals of Applied Probability* (\$10), *The Annals of Probability* (\$20), *The Annals of Statistics* (\$20), or *Statistical Science* (\$10). Of the total due dues paid, \$24 is allocated to *The IMS Bulletin* and the remaining amount is allocated equally among the scientific journal(s) received. Reduced membership dues are available to full-time students, permanent residents of countries designated by the IMS Council and retired members. Retired members may elect to receive the *Bulletin* only for \$20. *Organizational memberships* are available to nonprofit organizations at \$425 per year and to for-profit organizations at \$700 per year. Organizational memberships include two multiple-readership copies of all IMS journals in addition to other benefits specified for each category (details available from the IMS Business Office).

**Individual and General Subscriptions.** Subscriptions are available on a calendar-year basis. *Individual subscriptions* are for the personal use of the subscriber and must be in the name of, paid directly by, and mailed to an individual. Individual subscriptions for 1994 are available to *The Annals of Applied Probability* (\$70), *The Annals of Probability* (\$80), *The Annals of Statistics* (\$80), *The IMS Bulletin* (\$45) and *Statistical Science* (\$70). *General subscriptions* are for libraries, institutions and any multiple-readership use. General subscriptions for 1994 are available to the *The Annals of Applied Probability* (\$70), *The Annals of Probability* (\$130), *The Annals of Statistics* (\$130), *The IMS Bulletin* (\$50) and *Statistical Science* (\$75). Air mail rates for delivery outside North America are \$80 per title (excluding the *The IMS Bulletin*).

**Permissions policy.** Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by the Institute of Mathematical Statistics, provided that the base fee of \$5.00 per copy, plus \$0.00 per page is paid directly to the Copyright Clearance Center, 222 Rosewood Drive, Danvers, Massachusetts 01923. For those organizations that have been granted a photocopy license by CCC, a separate system of payment has been arranged. The fee code for users of the Transactional Reporting Service is 1050-5164/94 \$5.00 + 0.00.

**Correspondence.** Mail concerning membership, subscriptions, nonreceipt claims, copyright permissions, advertising or back issues should be sent to the IMS Business Office. Mail concerning submissions or editorial content should be sent to the Editor of the appropriate journal. Their addresses are listed above. Mail concerning the production of this journal should be sent to: Patrick Kelly, IMS Production Editor, Department of Statistics, 3000 Steinberg-Dietrich Hall, University of Pennsylvania, Philadelphia, Pennsylvania 19104-6302.

***The Annals of Applied Probability* (ISSN 1050-5164)**, Volume 4, Number 1, February, 1994. Published quarterly by the Institute of Mathematical Statistics, 3401 Investment Boulevard #7, Hayward, California 94545. Second-class postage paid at Hayward, California and at additional mailing offices.

**POSTMASTER:** Send address changes to *The Annals of Applied Probability*, Institute of Mathematical Statistics, 3401 Investment Boulevard #7, Hayward, California 94545-3819-18.

---

## EDITORIAL POLICY

The main purpose of *The Annals of Applied Probability*, *The Annals of Probability* and *The Annals of Statistics* is to publish contributions to the theory of probability and statistics and to their applications. The emphasis is on importance and interest; formal novelty and mathematical correctness alone are not sufficient. Also appropriate are authoritative expository papers and surveys of areas in vigorous development. All papers are refereed.

---

## NOTICE

Manuscripts submitted for publication in *The Annals of Applied Probability* should be sent to the Editor at the following address:

Richard Tweedie  
Department of Statistics  
Colorado State University  
Fort Collins, Colorado 80523

# THE ANNALS OF APPLIED PROBABILITY

## INSTRUCTIONS FOR AUTHORS

**Submission of Papers.** Papers to be submitted for publication should be sent to the Editor of *The Annals of Applied Probability*. (For current address, see the latest issue of the *Annals*.) **Four copies** should be submitted on paper that will take ink corrections. The manuscript will *not* normally be returned to the author; when expressly requested by the author, one copy of the manuscript will be returned.

**Preparation of Manuscripts.** Manuscripts should be typewritten, entirely double-spaced, including references, with wide margins at sides, top and bottom. All copies must be completely legible. When technical reports are submitted, all extraneous sheets and covers must be removed. Typists should check an issue of the *Annals* for style.

**Submission of Reference Papers.** Two copies of unpublished or not easily available papers cited in the manuscript should be submitted with the manuscript.

**Title.** The title should be descriptive and as concise as is feasible, i.e., it should indicate the topic of the paper as clearly as possible, but every word in it should be pertinent.

**Abbreviated Title.** An abbreviated title to be used as a running head is also required. This should normally not exceed 35 characters. For example, an article with the title "A Limit Theorem for Conditioned Recurrent Random Walk Attracted to a Stable Law" could have the running head, "Limit Theorem for Recurrent Random Walk" or possibly "Recurrent Random Walk Attracted to a Stable Law" depending on the emphasis to be conveyed.

**Affiliation.** Indicate your present institutional affiliation as you would like it to appear. List your permanent mailing address after the references.

**Summary.** Each manuscript is required to contain a summary, clearly separated from the rest of the paper, which will be printed immediately after the title. Its main purpose is to inform the reader quickly of the nature and results of the paper; it may also be used as an aid in retrieving information. The length of a summary will clearly depend on the length and difficulty of the paper, but in general it should not exceed 150 words. Formulas should be used as sparingly as possible within the summary. The summary should not make reference to results or formulas in the body of the paper—it should be self-contained.

**Footnotes.** Footnotes should not be used, except as described under Title Page Footnotes below. Such information should be included within the text.

**Title Page Footnotes.** Included as a footnote on page 1 should be the headings:

American Mathematical Society 1991 subject classifications. Primary—; secondary—.

Key words and phrases.

The classification numbers representing the primary and secondary subjects of the article may be found with instructions for its use in the *Mathematical Reviews Annual Subject Index-1991*. The key words and phrases should describe the subject matter of the article; generally they should be taken from the body of the paper.

Acknowledgment of support. Grants and contracts should also be included in this footnote.

**Identification of Symbols.** Manuscripts for publication should be clearly prepared to insure that all symbols are properly identified. Distinguish between "oh" and "zero," "ell" and "one," "epsilon" and "element of," "summation" and "capital sigma," etc. Indicate also when special type is required (Greek, German, script, boldface, etc.); unless indicated otherwise, formula letters will be set in italics. Acronyms should be introduced sparingly. Any hand-written symbols should be clearly identified.

**Figures and Tables.** Figures, charts, and diagrams should be prepared in a form suitable for photographic reproduction and should be professionally drawn twice the size they are to be printed. (These need not be submitted until the paper has been accepted for publication.) The printer does not improve upon the quality of the figures submitted. Tables should be typed on separate pages with accompanying footnotes immediately below the table.

**Formulas.** Fractions *in the text* are preferably written with the solidus or negative exponent; thus,

$(a + b)/(c + d)$  is preferred to  $\frac{a + b}{c + d}$ , and  $(2\pi)^{-1}$

or  $1/(2\pi)$  to  $\frac{1}{2\pi}$ . Also,  $a^{b(c)}$  and  $a_{b(c)}$  are preferred to  $a^{bc}$  and  $a_{bc}$ , respectively. Complicated exponentials should be represented with the symbol *exp*. A fractional exponent is preferable to a radical sign.

**References.** References should be typed double-spaced and should follow the style:

Révész, P. (1982). On the increments of Wiener and related processes. *Ann. Probab.* **10** 613–622.

In textual material, the format "... Révész (1982)..." should be used. Multiple references can be distinguished as "... Révész (1982a)..." Abbreviations for journals should be taken from a current index issue of *Mathematical Reviews*.

**Addresses.** The permanent address of each author should be typed following the references.

**Copyright, Page Charges and Offprints.** Page charges are \$45 per printed page. Payment of some or all of the estimated page charges associated with articles is strongly encouraged. The editorial review of articles and administration of page charges are completely separate activities. Manuscripts are reviewed and accepted prior to determining whether page charges will be paid.

Corresponding authors receive 25 gratis offprints. Offprints of discussion articles include the main article(s), discussion(s) and rejoinder(s) as a package. Corresponding authors of main articles receive 25 gratis offprints; corresponding discussants receive 10 gratis offprints. Additional offprints may be purchased by using the IMS Offprint Purchase Order Form accompanying the galley.

Copyright transfer, page charges and offprints are the responsibility of the IMS Business Manager.

**Galley Proofs.** The author will ordinarily receive galley proofs. Corrected galley proofs should be sent to: AAP Redactory, Technical Typesetting Inc., 1510 Caton Center Drive, Suite E, Baltimore, MD 21227.
