THE ANNALS of MATHEMATICAL STATISTICS

FOUNDED AND EDITED BY H. C. CARVER, 1930–1938
EDITED BY S. S. WILKS, 1938–1949

THE OFFICIAL JOURNAL OF THE INSTITUTE OF MATHEMATICAL STATISTICS

Contents

PAGE

Alfréd Rényi, 1921–1970 ..... P. RÉVÉSZ AND I. VINCZE i

Articles

Rank spectral processes and tests for serial dependence ..... R. J. BERAN 1749

Bayesian inference in linear relations ..... C. VILLEGAS 1767

Order of dependence in a stationary normally distributed two-way series
P. K. BHATTACHARYA 1792

Play-the-winner rule and inverse sampling for selecting the best of $k \geq 3$ binomial populations ..... MILTON SOBEL AND GEORGE H. WEISS 1808

Maximum likelihood estimation of life-distributions from renewal testing
L. H. CROW AND I. N. SHIMI 1827

A characterization of certain rank-order tests with bounds for the asymptotic relative efficiency ..... KONRAD BEHNEN 1839

Random quotients and the Behrens-Fisher problem
MORRIS L. EATON AND RICHARD A. OLSHEN 1852

Sequential probability ratio test for the mean value function of a Gaussian process
P. K. BHATTACHARYA AND ROBERT P. SMITH 1861

Inequalities for the law of large numbers ..... THOMAS G. KURTZ 1874

How to win a war if you must: optimal stopping based on success runs
NORMAN STARR 1884

Markov decision processes with a new optimality criterion: small interest rates
STRATTON C. JAQUETTE 1894

Limit theorems for the distributions of the sums of a random number of random variables ..... D. SZÁSZ 1902

Fredholm determinant of a positive definite kernel of a special type and its application
SHASHIKALA SUKHATME 1914

An equivalent to the martingale square function inequality ..... LOUIS GORDON 1927

Error formulae for optimal linear filtering, prediction and interpolation of stationary time series ..... JAKOV SNYDERS 1935

Gaussian processes and Gaussian measures
BALRAM S. RAJPUT AND STAMATIS CAMBANIS 1944

Continued on back cover

Vol. 43, No. 6—December 1972

Institute of Mathematical Statistics is collaborating with JSTOR to digitize, preserve, and extend access to *The Annals of Mathematical Statistics.*

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

The purpose of the Institute of Mathematical Statistics is to encourage the development, dissemination, and application of mathematical statistics.

OFFICERS

President:
Lucien LeCam, Department of Statistics, University of California, Berkeley, California 94720

President-Elect:
R. R. Bahadur, Department of Statistics, University of Chicago, Chicago, Illinois 60637

Executive Secretary:
Leo Katz, Statistical Laboratory, Michigan State University, East Lansing, Michigan 48823

Program Secretary:
R. V. Hogg, Department of Statistics, University of Iowa, Iowa City, Iowa 52240

Treasurer:
Robert Elashoff, MR IV—Room 131, University of California, San Francisco, California 94122

Editor: *Annals of Mathematical Statistics*
Ingram Olkin, Department of Statistics, Stanford University, Stanford, California 94305

Editor: *Annals of Probability* (beginning January, 1973)
Ronald Pyke, Department of Mathematics, University of Washington, Seattle, Washington 98195

Managing Editor:
K. J. C. Smith, Department of Statistics, University of North Carolina, Chapel Hill, North Carolina 27514

Membership. Membership dues including a subscription to the ANNALS OF MATHEMATICAL STATISTICS are $20.00 per year for residents of the United States or Canada and $12.00 per year for residents of other countries. Special rates of $10.00 per year are available to students. Inquiries regarding membership in the Institute should be sent to the Treasurer of the Institute.

Subscription Rates. Current issues of the *Annals of Mathematical Statistics* are $30.00 per volume (six issues of one calendar year). Members of the Institute of Mathematical Statistics pay different rates (see above). Single issues are $5.75. Back numbers for all issues up to and including 1956 (Volume 27) are $16.50 per volume, $4.50 per issue; issues from 1957 through 1964 are $22.00 per volume, $5.75 per issue; from 1965 onward, $33.00 per volume, $5.75 per issue. Complete sets (Volumes 1 through 27) are $275.00. If additional volumes are ordered at the same time complete sets are ordered, the price is $16.50 per volume for Volumes 28 through 35, and $22.00 per volume for Volumes 36 through 40. Complete sets (Volumes 1 through 40) are $500.00.

Communications concerning **subscriptions, back numbers, payment of dues, membership, changes of address, etc.**, should be addressed to the Treasurer. **Advertising** correspondence should be directed to the Managing Editor.

Mail to the *Annals of Mathematical Statistics* should be addressed to either the Editor, Managing Editor or the Treasurer, as described above. It should *not* be addressed to Waverly Press.

Z. W. BIRNBAUM, 1967–1970

Published bimonthly by the Institute of Mathematical Statistics in February, April, June, August, October and December.

EDITORIAL POLICY

The main aim of the *Annals of Mathematical Statistics* is to publish original contributions to theoretical statistics and to probability theory. The emphasis is on quality, not just on formal novelty and correctness of the contents of a paper. Expository papers are also welcome, especially if they provide authoritative surveys of areas that have been in vigorous development.

NOTICE

Manuscripts submitted for publication in the *Annals of Statistics* should be sent to the Editor at the following address: Ingram Olkin, Department of Statistics, Stanford University, Stanford, California 94305. Manuscripts submitted for publication in the *Annals of Probability* should be sent to the Editor at the following address: Ronald Pyke, Department of Mathematics, University of Washington, Seattle, Washington 98195.

IMPORTANT ANNOUNCEMENT TO SUBSCRIBERS TO THE ANNALS OF MATHEMATICAL STATISTICS

Beginning with the calendar year of 1973 *The Annals of Mathematical Statistics* will be superseded by TWO journals.

These are the:

ANNALS OF PROBABILITY	Per Volume (Six Issues)	$25.00
ANNALS OF STATISTICS	Per Volume (Six Issues)	$25.00

The Institute of Mathematical Statistics will also continue to publish "The Institute of Mathematical Statistics BULLETIN", begun in January, 1972. A subscription to the BULLETIN will cost $4.00 per year. Such subscriptions will not be part of subscriptions to the two ANNALS but must be ordered separately.

All subscription orders are on a *calendar year basis* ONLY and payable in advance.

There is NO SPECIAL RATE for ordering MORE THAN ONE JOURNAL.

ALL orders and correspondence should be addressed to the Treasurer's office:

Prof. Robert M. Elashoff, Treasurer
The Institute of Mathematical Statistics

THE ANNALS OF STATISTICS

VOLUME 1 JANUARY 1973 No. 1

Articles

A statistical theory of calibration.....HENRY SCHEFFÉ
Convergence of estimates under dimensionality restrictions
L. LECAM
On the centering of a simple linear rank statistic....WASSILY HOEFFDING
Limiting distributions of Kolmogorov–Smirnov type statistics under the alternative.....M. RAGHAVACHARI
The conditional probability integral transformation and applications to obtain composite chi-square goodness-of-fit tests
FEDERICO J. O'REILLY AND C. P. QUESENBERRY
Covariance stabilizing transformations.....PAUL W. HOLLAND
An empirical Bayes approach to multiple linear regression
SERGE L. WIND
Differential equations and optimal choice problems...ANTHONY G. MUCCI
Characterizations of populations using regression properties
F. S. GORDON

Short Communications

On a minimax estimate for the mean of a normal random vector under a generalized quadratic loss function...TAMER BASAR AND MAX MINTZ
Asymptotically efficient estimation of covariance matrices with linear structure.....T. W. ANDERSON
Generalized Bayes minimax estimators of the multivariate normal mean with unknown covariance matrix
PI-ERH LIN AND HUI-LIANG TSAI
Convergence of reduced empirical and quantile processes with application to functions of order statistics in the non-i.i.d. case
GALEN R. SHORACK
Convergence rates for U-statistics and related statistics
WILLIAM F. GRAMS AND R. J. SERFLING
Noncentral convergence of Wald's large-sample test statistic in exponential families.....T. W. F. STROUD
An asymptotic UMP sign test in the presence of ties.....J. KRAUTH
The most powerful scale and location invariant test of the normal versus the double exponential.....VINCENT A. UTHOFF
An asymptotically optimal sequential procedure for the estimation of the largest mean.....YUNG LIANG TONG
On equal distributions.....MOSHE POLLAK
Nonlinear operators and sufficiency.....J. PFANZAGL AND J. WEBER
Factorial experiments in cyclic designs.....J. A. JOHN
On μ-resolvable and affine μ-resolvable balanced incomplete block designs
SANPEI KAGEYAMA
On the inequality for BIBDs with special parameters..SANPEI KAGEYAMA

THE ANNALS OF PROBABILITY

VOLUME 1 FEBRUARY 1973 No. 1

Paul Lévy 1886–1971 .....
Publications of Paul Lévy .....

The 1971 Wald Memorial Lectures

Distribution function inequalities for martingales .....D. L. BURKHOLDER

Special Invited Papers

An application of ergodic theory to probability theory
DONALD S. ORNSTEIN
Discussion by P. C. Shields, R. M. Blumenthal, K. Jacobs, V. Krengel, W. Krieger, G. Maruyama, H. Totoki and B. Weiss .....
Sample functions of the Gaussian process .....R. M. DUDLEY

Articles

Non-anticipative representations of equivalent Gaussian processes
G. KALLIANPUR AND H. OODAIRA
A comparison of continuity conditions for Gaussian processes
M. B. MARCUS
Occupation times for smooth stationary processes
J. HOROWITZ AND D. GEMAN
Sample functions of the N-parameter Wiener process
WILLIAM E. PRUITT AND STEVEN OREY
Strong laws of large numbers for r-dimensional arrays of random variables
R. T. SMYTHE

Short Communications

On a convex function inequality for martingales .....ADRIANO M. GARSIA
A note on minimax filtering .....LEO BREIMAN
A note on the convergence of series of stochastic processes
M. J. WICHURA
A characterization of the exponential law
BRUCE K. ERICKSON AND HARRY GUESS
A note on strong-mixing Gaussian sequences .....CHANDRAKANT M. DEO
Probabilities for a kth nearest neighbor problem on the line
.....JOSEPH I. NAUS AND SYLVAN R. WALLENSTEIN

Note

Correction to "A counterexample on measurable processes"
R. M. DUDLEY

Book Review

Review of "An Introduction to Probability Theory and its Applications" 2 by William Feller, 2nd ed. .....KAI LAI CHUNG
