ESTADISTICA

Official Journal of the Inter American Statistical Institute

Vol. IX, No. 32 September 1951

Contents

Estadísticas de las Finanzas Públicas: Las Funciones del Presupuesto de los Gobiernos Centrales

Notas sôbre o Levantamento de Dados Bio-Estatísticos na Amazonia Brasileira.....ACHILLES SCORZELLI JR.

Renta Nacional.....LORETO DOMINGUEZ

El Problema de la Suficiencia de Pagos y de la Seguridad de Empleo para los Estadísticos en las Agencias Oficiales de la América Latina

Quelques Observations sur L'Assimilation Linguistique des Immigrés au Brésil et de Leurs Descendants.....GIORGIO MORTARA

Informes sobre la I Sesión de la Comisión de Mejoramiento de las Estadísticas Nacionales, y sobre la IV Sesión de la Comisión del Censo de las Américas de 1950, Washington, D. C., June 2–15, 1951.

Editorial Notes. Institute Affairs. Statistical News. Publications.

Editor: Francisco de Abrisqueta

Inter American Statistical Institute, % Pan American Union, Washington 6, D.C., U. S. A.

JOURNAL OF THE AMERICAN STATISTICAL ASSOCIATION

March 1952
Vol. 47 No. 257

1108 16th Street, N. W., Washington 6, D. C.

Estimation for Sub-Sampling Designs Employing the County as a Primary Sampling Unit.....EMIL H. JEBE

Some Applications of Statistics for Auditing.....JOHN NETER

Latent Structure Analysis and its Relation to Factor Analysis.....BERT F. GREEN, JR.

Fertility Trends and Differentials in the U. S.....CLYDE V. KISER

REPRINTS OF ABSTRACTS IN STATISTICAL METHODOLOGY

BOOK REVIEWS

ASA

The American Statistical Association invites as members all persons interested in:
1. development of new theory and method
2. improvement of basic statistical data
3. application of statistical methods to practical problems.

Institute of Mathematical Statistics is collaborating with JSTOR to digitize, preserve, and extend access to *The Annals of Mathematical Statistics.* www.jstor.org

BIOMETRIKA

A Journal for the Statistical Study of Biological Problems

Volume 38 Contents Parts 3 and 4, December 1951

1. Biometrika 1901–1951. By W. P. ELDERTON. 2. Jacobians of certain matrix transformations useful in Multivariate analysis. By W. L. DEEMER and I. OLKIN. 3. A chart for the incomplete Beta function and the cumulative binomial distribution. By H. O. HARTLEY and E. R. FITCH. 4. The effect of standardization on a χ^2 approximation in factor analysis. By M. S. BARTLETT. 5. Some systematic experimental designs. By D. R. COX. 6. On estimating the size of mobile populations from recapture data. By N. T. J. BAILEY. 7. The comparison of several groups of observations when the ratios of the population variances are unknown. By G. S. JAMES. 8. On the comparison of several mean values: an alternative approach. By B. L. WELCH. 9. Tables of symmetric functions: Pts. II and III. By F. N. DAVID and M. G. KENDALL. 10. A mathematical theory of animal trapping. By P. A. P. MORAN. 11. Two applications of bivariate k-statistics. By B. M. COOK. 12. Expected frequencies in a sample of an animal population in which the abundances of species are lognormally distributed: Pt. I, Theory; Pt. II, Application. By P. M. GRUNDY. 13. The fitting of polynomials to equidistant data with missing values. By H. O. HARTLEY. 14. The delay to pedestrians crossing a road. By J. C. TANNER. 15. Interrelations between certain linear systematic statistics of samples from any continuous population. By G. P. SILLITTO. 16. Truncated log-normal distributions: I. Solution by moments. By H. R. THOMPSON. 17. Further applications of range to the analysis of variance. By H. A. DAVID. 18. The estimation of population parameters from data obtained by means of the capture-recapture method: I. The maximum likelihood equation for estimating the death rate. By P. H. LESLIE and DENNIS CHITTY. 19. MISCELLANEA. 20. REVIEWS.

The subscription price, *payable in advance*, is 45s. inland, 54s. export (per volume including postage). Cheques should be drawn to Biometrika and sent to "The Secretary, Biometrika Office, Department of Statistics, University College, London, W.C. 1." All foreign cheques must be in sterling and drawn on a bank having a London agency.

ECONOMETRICA

Journal of the Econometric Society

Contents of Vol. 20, January, 1952, include:

HOLLIS B. CHENERY.....Overcapacity and the Acceleration Principle

ROBERT SOLOW.....On the Structure of Linear Models

JANET A. FISHER.....Postwar Changes In Income and Savings Among Consumers in Different Age Groups

GEORGE H. BORTS.....Production Relations in the Railway Industry

Report of the Santa Monica Meeting, August 2–4, 1951. Report of the Minneapolis Meeting, September 4–7, 1951. Report of the Council for 1951, Treasurer's Report, Election of Fellows, 1951. Book Reviews.

Published Quarterly Subscription rates available on request

The Econometric Society is an international society for the advancement of economic theory in its relation to statistics and mathematics.

Subscriptions to *Econometrica* and inquiries about the work of the Society and the procedure in applying for membership should be addressed to William B. Simpson, Secretary, The Econometric Society, The University of Chicago, Chicago 37, Illinois, U. S. A.

MATHEMATICAL REVIEWS

A journal containing reviews of the mathematical literature of the world, with full subject and author indices

Publication of this journal is sponsored by the American Mathematical Society, Mathematical Association of America, Institute of Mathematical Statistics, London Mathematical Society, Edinburgh Mathematical Society, Union Matematica Argentina, and others.

Subscriptions accepted to cover the calendar year only.
Issues appear monthly except July. $20.00 per year.

Send subscription order or request for sample copy to

AMERICAN MATHEMATICAL SOCIETY
80 Waterman Street, Providence 6, Rhode Island

JOURNAL OF THE
ROYAL STATISTICAL SOCIETY

Series B (Methodological)

Contents of Volume 13, No. I, 1951

G. E. P. Box and K. B. Wilson
On the Experimental Attainment of Optimum Conditions. (With Discussion)
G. A. Barnard ..... The Theory of Information. (With Discussion)
F. Benson and D. R. Cox
The Productivity of Machines Requiring Attention at Random Intervals
L. Fox and J. G. Hayes ..... More Practical Methods for the Inversion of Matrices
S. Rushton
On Least Square Fitting by Orthonormal Polynomials Using the Choleski Method
Barnet Woolf ..... Computation and Interpretation of Multiple Regressions
M. P. Schützenberger
An Extension Problem in the Theory of Incomplete Block Designs
H. R. Thomson and I. D. Dick
Factorial Designs in Small Blocks Derived from Orthogonal Latin Squares
Alladi Ramakrishnan ..... Some Simple Stochastic Processes
P. A. P. Moran ..... Estimation Methods for Evolutive Processes
P. A. P. Moran ..... The Random Division of an Interval—Part II

The Royal Statistical Society, 4, Portugal Street, London, W.C.2.

SKANDINAVISK AKTUARIETIDSKRIFT

1951 – Parts 1 – 2

Contents

HARALD BERGSTRÖM.....On Asymptotic Expansions of Probability Functions
EDWARD W. BARANKIN
Concerning Some Inequalities in the Theory of Statistical Estimation
MARTIN SANDELIUS.....Truncated Inverse Binomial Sampling
KNUT MEDIN ..... A Function for Smoothing Tables of the Duration of Sickness
MARTIN WEIBULL
The Regression Problem Involving Non-random Variates in the Case of Stratified Sample from Normal Parent Populations with Varying Regression Coefficients
K.-G. HAGSTROEM.....Erik Stridsberg†

Annual subscription: 10 Swedish Crowns (Approx. $2.00).

Inquiries and orders may be addressed to the Editor,

SKÄRVIKSVÄGEN 7, DJURSHOLM (SWEDEN)

SANKHYĀ

The Indian Journal of Statistics

Edited by P. C. Mahalanobis

Vol. 11, Part 1, 1951

In Memoriam: Abraham Wald
On the Realization of Stochastic Processes by Probability Distributions in Function Spaces ..... HENRY B. MANN
A Theorem in Least Squares ..... C. R. RAO
On Type B_1 and Type B Regions ..... H. K. NANDI
Some Notes on Ordered Samples from a Normal Population ..... K. C. S. PILLAI
Some Exponential Forms for Topographic Correlation ..... BIRENDRANATH GHOSH
On the Orthogonal Polynomials Associated with Student's Distribution. A. S. KRISHNAMOORTHY
A Multivariate Gamma-Type Distribution ..... V. K. RAMABHADRAN
A Study on Differences in Physical Development by Socio-Economic Strata. RAMKRISHNA MUKHERJEE
U.N. Commission on Statistical Sampling—Report.

Annual subscription: 30 rupees
Inquiries and orders may be addressed to the
Editor, Sankhyā, Presidency College, Calcutta, India.

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

OFFICERS FOR 1952

President:
M. A. GIRSHICK, Stanford University, Stanford, California

President-Elect:
M. H. HANSEN, Bureau of the Census, Washington, D. C.

Secretary-Treasurer:
C. H. FISCHER, University of Michigan, Ann Arbor, Michigan

Editor:
T. W. ANDERSON, Columbia University, New York, New York

The purpose of the Institute of Mathematical Statistics is to stimulate research in the mathematical theory of statistics and to promote cooperation between the field of pure research and the fields of application.

Membership dues including subscription to the ANNALS OF MATHEMATICAL STATISTICS are $10.00 per year within the United States and Canada and $7.00 per year elsewhere. Dues and inquiries regarding membership in the Institute should be sent to the Secretary-Treasurer of the Institute.

MEETINGS OF THE INSTITUTE

EASTERN REGIONAL MEETING—BLACKSBURG, VIRGINIA—March 19–21, 1952.

To be held in conjunction with the Biometrics Society. Abstracts must be in the hands of Professor Boyd Harshbarger, Virginia Polytechnic Institute, Blacksburg, Va., not later than March 10, 1952.

WESTERN REGIONAL MEETING—EUGENE, OREGON—June 19–21, 1952.

Abstracts must be in the hands of Assistant Secretary W. J. Dixon, Department of Mathematics, University of Oregon, Eugene, Oregon, not later than May 22, 1952.

SUMMER MEETING—EAST LANSING, MICHIGAN—September 2–6, 1952.

Abstracts must be in the hands of Associate Secretary K. J. Arnold, North Hall, University of Wisconsin, Madison 6, Wisconsin, not later than July 20, 1952.
