

ACCEPTANCE SAMPLING

A Symposium

available March 1950—\$1.50

Acceptance Sampling by Attributes

Developments Prior to 1941..... Paul Peach

Wartime Developments..... E. G. Olds

Acceptance Sampling by Variables

**Acceptance Sampling by Variables, with Special Reference to the Case in
which Quality is Measured by Average or Dispersion..... J. H. Curtiss**

**Use of Variables in Acceptance Inspection for Percent Defective
W. Allen Wallis**

Chairman's Closure..... J. W. Tukey

AMERICAN STATISTICAL ASSOCIATION

1603 K Street, N. W., Washington 6, D. C.

SKANDINAVISK AKTUARIETIDSKRIFT

1949 - Parts 1 - 2

Contents

GUNTHER ALBERS AND GERHARD KOHLER: Summarische Berechnung der Pramienreserve ohne Gruppenbildung.....	1
E. FRANCKX: Sur les probabilités d'arrivée des événements en nombre infini..	7
C. O. SEGERDAHL: A Table of the Interest Intensity Function for Interest Intervals of 0.01% from 0% to 7%.....	15
NIELS ARLEY: On the birth-and-death process.....	21
ERIK SPARRÉ ANDERSON: On the Number of Positive Sums of Random Vari- ables.....	27
HARALD BERGSTRÖM: On the Central Limit Theorem in the Case of Not Equally Distributed Random Variables.....	37
AUREL WINTNER: Factorial Moments and Enumerating Distributions.....	63
H. RUCH: Ein grundsätzlicher Beitrag zum Verhältnis des prospektiv und retrospektiv gerechneten Deckungskapitals.....	69
H. RUCH: Die Gewinnbeteiligung bei hohen Versicherungssummen.....	74
BENGT AKERBERG: On Premium Calculation in the Case of a Temporary Life Insurance for a Varying Amount.....	82

Annual subscription: 10 Swedish Crowns (Approx. \$2.00).

Inquiries and orders may be addressed to the Editor,
SKÄRVIKSVÄGEN 7, DJURSHOLM (SWEDEN)

ECONOMETRICA

Journal of the Econometric Society

Contents of Vol. 18, January, 1950, include:

TRYGVE HAAVELMO.....	The Notion of Involuntary Economic Decisions
W. BRADDOCK HICKMAN	The Determinacy of Absolute Prices in Classical Economic Theory
WASSILY LEONTIEF.....	The Consistency of the Classical Theory of Money and Prices
CECIL G. PHIPPS.....	A Note on Patinkin's "Relative Prices"
M. H. QUENOUILLE.....	An Application of Least Squares to Family Diet Surveys
MICHAEL J. VERHULST	The Theory of Demand Applied to the French Gas Industry
KENNETH MAY.....	A Note on the Pure Theory of Production
KENNETH J. ARROW	Homogeneous Systems in Mathematical Economics: A Comment
CECIL G. PHIPPS.....	A Note on Tintner's "Homogeneous Systems"
Report of Colmar Meeting, announcement of future meetings, "Criticism Invited," etc.	

Published Quarterly

Subscription to Nonmembers: \$9.00 per year

The Econometric Society is an international society for the advancement of economic theory in its relation to statistics and mathematics.

Subscriptions to *Econometrica* and inquiries about the work of the Society and the procedure in applying for membership should be addressed to Alfred Cowles, Secretary and Treasurer, The Econometric Society, The University of Chicago, Chicago 37, Illinois, U.S.A.

BIOMETRIKA

A Journal for the Statistical Study of Biological Problems

Volume XXXVI

Contents

Parts I and II, June 1949

I. The infectiousness of measles. By MAJOR GREENWOOD. II. A note on the analysis of grouped probit data. By K. D. TOCHER. III. A generalization of Poisson's binomial limit for use in ecology. By MARJORIE THOMAS. IV. The estimation and comparison of residual regressions where there are two or more related sets of observations. By A. H. CARTER. V. Cumulants of multivariate multinomial distributions. By JOHN WISHART. VI. On the Wishart distribution in statistics. By A. C. AITKEN. VII. The spectral theory of discrete stochastic processes. By P. A. P. MORAN. VIII. On a property of distributions admitting sufficient statistics. By V. S. HUZURBAZAR. IX. On a method of trend elimination. By M. H. QUENOUILLE. X. On the estimation of dispersion by linear systematic statistics. By H. J. GODWIN. XI. On the reconciliation of theories of probability. By M. G. KENDALL. XII. The derivation and partition of χ^2 in certain discrete distributions. By H. O. LANCASTER. XIII. A note on the subdivision of χ^2 into components. By J. O. IRWIN. XIV. The first and second moments of some probability distributions arising from points on a lattice and their application. By P. V. KRISHNA IYER. XV. Probability Tables for the range. By E. J. GUMBEL. XVI. Systems of frequency curves generated by methods of translation. By N. L. JOHNSON. XVII. Rank and product-moment correlation. By M. G. KENDALL. XVIII. Tests of significance in harmonic analysis. By H. O. HARTLEY. XIX. The non-central X^2 and F -distributions and their applications. By P. B. PATNAIK. XX. MISCELLANEA: On a method of estimating frequencies. By D. J. FINNEY. A further note on the mean deviation from the median. By K. R. NAIR. REVIEWS: Theory of probability and Karl Pearson's early statistical papers.

The subscription price, payable in advance, is 45s. inland, 54s. export (per volume including postage). Cheques should be drawn to Biometrika and sent to "The Secretary, Biometrika Office, Department of Statistics, University College, London, W.C. 1." All foreign cheques must be in sterling and drawn on a bank having a London agency.

SANKHYĀ

The Indian Journal of Statistics

Edited by P. C. Mahalanobis

Vol. IX, Part 4, 1949

- A theoretical system of selection for Homostyle Primula.....R. A. FISHER
On some problems arising out of discrimination with multiple characters
C. RADHAKRISHNA RAO
On certain aspects of spring balance designs.....K. S. BANERJEE
United Nations Economic and Social Council Sub-commission on Statistical Sampling:
Report to the Statistical Commission
Recommendations concerning the preparation of reports of Sampling Surveys
Comparability of measurements.....K. P. CHATTOPADHYAY
Book Reviews

Annual subscription: 30 rupees

Inquiries and orders may be addressed to the
Editor, Sankhyā, Presidency College, Calcutta, India.

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

OFFICERS FOR 1950

President:

J. L. DOOB, University of Illinois, Urbana

President-Elect:

P. S. DWYER, University of Michigan, Ann Arbor

Secretary-Treasurer:

C. H. FISCHER, University of Michigan, Ann Arbor

Editor:

T. W. ANDERSON, Columbia University, New York

The purpose of the Institute of Mathematical Statistics is to stimulate research in the mathematical theory of statistics and to promote cooperation between the field of pure research and the fields of application.

Membership dues including subscription to the ANNALS OF MATHEMATICAL STATISTICS are \$7.00 per year within the Western Hemisphere and \$5.00 per year elsewhere. Dues and inquiries regarding membership in the Institute should be sent to the Secretary-Treasurer of the Institute.

MEETINGS OF THE INSTITUTE

CHAPEL HILL, N. C., March 17-19, 1950.

Joint Meeting with the Biometric Society. Abstracts of papers in Mathematical Statistics must be in the hands of Professor Herbert Robbins, Department of Mathematical Statistics, Chapel Hill, N. C., not later than February 1. Abstracts of Biometric papers must be in the hands of Professor H. L. Lucas, Department of Experimental Statistics, State College, Raleigh, by February 1.

CHICAGO, ILL., April 28-29, 1950.

Abstracts must be in the hands of Associate Secretary Kenneth J. Arnold, Mathematics Department, University of Wisconsin, Madison, Wisconsin, not later than March 15.
