

JOURNAL OF THE AMERICAN STATISTICAL ASSOCIATION

DECEMBER, 1948

Articles

- Commercial Uses of Sampling.....J. STEVENS STOCK AND JOSEPH R. HOCHSTIM
Variation of the Frequency of Fatal Quarrels with Magnitude. LEWIS F. RICHARDSON
Bank Reserves and Business Fluctuations.....CLARK WARBURTON
The Ordering of n Items Assigned to k Rank Categories by Votes of m Individuals
GARRET L. SCHUYLER
Levels of Significance for Variance Ratio of Two Samples of Equal Size
C. J. KIRCHEN
Main Effects and Interactions.....D. J. FINNEY
A Test for Symmetry in Contingency Tables.....ALBERT H. BOWKER
The War Production Board's Statistical Reporting Experience, Part IV
DAVID NOVICK AND GEORGE A. STEINER
Correction to "On Estimating Precision of Measuring Instruments and Product
Variability".....FRANK E. GRUBBS
Statistical Methodology Index.....OSCAR KRISSEN BUROS

AMERICAN STATISTICAL ASSOCIATION
1603 K Street, N. W., Washington 6, D. C.

MATHEMATICAL REVIEWS

A journal containing reviews of the mathematical literature of the world, with full subject and author indices

Publication of this journal is sponsored by the American Mathematical Society, Mathematical Association of America, Institute of Mathematical Statistics, London Mathematical Society, Edinburgh Mathematical Society, Union Matematica Argentina, and others.

Subscriptions accepted to cover the calendar year only.
Issues appear monthly except July. \$20.00 per year.

Send subscription order or request for sample copy to

AMERICAN MATHEMATICAL SOCIETY
531 West 116th Street, New York City 27

SKANDINAVISK AKTUARIETIDSKRIFT

1948 - Parts 1 - 2

Contents

On Some Discrete Frequency Functions.....	PER OTTESTAD
The Probability of Decrements from a Population. A study in Discrete Random Processes.....	H. L. SEAL
Some Properties of the Ruin Function in the Collective Theory of Risk.	C. O. SEGERDAHL
On the Theory of Testing Serial Correlation.....	T. W. ANDERSON
Eksamen i Forsikringsvidenskab og Statistik ved Kobenhavns Universitet	
Aktuarembetseksamen ved Universitetet i Oslo	
De skandinaviske aktuarforeningers virksomhed i 1947	
Avis	

Annual subscription: 10 Swedish Crowns (Approx. \$2.00).

Inquiries and orders may be addressed to the Editor,
SKÄRVIKSVÄGEN 7, DJURSHOLM (SWEDEN)

ECONOMETRICA

Journal of the Econometric Society

Contents of Vol. 16, No. 4, October, 1948, include:

	Page
GERHARD TINTNER: Homogeneous Systems in Mathematical Economics.....	273
MICHEL J. J. VERHULST: The Pure Theory of Production Applied to the French Gas Industry.....	295
DAVID HAWKINS: Some Conditions of Macroeconomic Stability.....	309
M. S. BARTLETT: A Note on the Statistical Estimation of Supply and Demand Relations from Time Series.....	323
ANDRE NATEF ET RENE ROY: Remarques et Suggestions Relatives aux Nombres-indices.....	330
EDWARD AMES: A Theoretical and Statistical Dilemma—The Contributions of Burns, Mitchell, and Frickey to Business-Cycle Theory.....	347
J. N. BEHRMAN: The Short-Term Interest Rate and the Velocity of Circulation: Addendum.....	370

Published Quarterly

Subscription to Nonmembers: \$9.00 per year

The Econometric Society is an international society for the advancement of economic theory in its relation to statistics and mathematics.

Subscriptions to *Econometrica* and inquiries about the work of the Society and the procedure in applying for membership should be addressed to Alfred Cowles, Secretary and Treasurer, The Econometric Society, The University of Chicago, Chicago 37, Illinois, U.S.A.

BIOMETRIKA

A Journal for the Statistical Study of Biological Problems

Volume XXXV

Contents.

Parts III and IV, December 1948

I. Some further notes on the use of matrices in population mathematics. By P. H. LESLIE. II. The transformation of Poisson, binomial and negative-binomial data. By F. J. ANSCOMBE. III. Some theorems on time series. II. The significance of the serial correlation coefficient. By P. A. P. MORAN. IV. Some results in the testing of serial correlation coefficients. By M. H. QUENOUILLE. V. Fractional replication arrangements for factorial experiments with factors at two levels. By K. A. BROWNLEE and B. K. KELLY and P. K. LORAINE. VI. The relationship between finite groups and complete orthogonal squares, cubes and hypercubes. By K. A. BROWNLEE and P. K. LORAINE. VII. Systematic sampling of continuous parameter populations. By A. E. JONES. VIII. Continuation of Dr. Jones's paper. By M. G. KENDALL. IX. The precision of observed values of small frequencies. By J. B. S. HALDANE. X. Note on Professor Haldane's paper regarding the treatment of rare events. By E. S. PEARSON. XI. A further note on the mean deviation. By H. J. GODWIN. XII. A note on the asymptotic distribution of range. By D. R. COX. XIII. On the role of variable generation time in the development of a stochastic birth process. By DAVID G. KENDALL. XIV. 2×2 Tables; the power function of the test on a randomized experiment. By E. S. PEARSON and MAXINE MERRINGTON. XV. Statistical analysis of a non-orthogonal tri-factorial experiment. By W. L. STEVENS. XVI. Comparisons of heights and weights of German civilians recorded in 1946-7 and Royal Air Force and other British series. By G. M. MORANT. XVII. Testing the significance of correlation between time series. By G. H. ORCUTT and S. F. JAMES. XVIII. MISCELLANEA: Note on the median of a multivariate distribution. By J. B. S. HALDANE. A property of rank correlations. By H. E. DANIELS. Approximation errors in distributions of independent variates. By H. O. HARTLEY. Correlations between χ^2 cells. By F. N. DAVID. Note on 'Proofs of the distribution law of the second order moment statistics.' By JOHN WISHART. XIX. REVIEW: Probit Analysis.

The subscription price, payable in advance, is 45s. inland, 54s. export (per volume including postage). Cheques should be drawn to Biometrika and sent to "The Secretary, Biometrika Office, Department of Statistics, University College, London, W.C. 1." All foreign cheques must be in sterling and drawn on a bank having a London agency.

SANKHYĀ

The Indian Journal of Statistics

Edited by P. C. Mahalanobis

Vol. IX, Part 1, 1948

Ancillary statistics and fiducial distributions.....A. R. G. OWEN
Notes on testing of composite hypotheses-II.....S. N. ROY
A test for field uniformity based on the space correlation method....N. N. GHOSH
Crop-cutting experiment on sugarcane in a farm cultivation.....J. M. SEN GUPTA
Walter A. Shewhart and Statistical Quality Control in India...P. C. MAHALANOBIS
Indian Statistical Institute—
Sixteenth Annual Report: 1947-48

Annual subscription: 30 rupees
Inquiries and orders may be addressed to the
Editor, Sankhyā, Presidency College, Calcutta, India.

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

OFFICERS FOR 1949

President:

J. NEYMAN, University of California, Berkeley

President-Elect:

J. L. DOOB, The University of Illinois, Urbana

Secretary-Treasurer:

PAUL S. DWYER, University of Michigan, Ann Arbor

Editor:

S. S. WILKS, Princeton University, Princeton, N. J.

The purpose of the Institute of Mathematical Statistics is to stimulate research in the mathematical theory of statistics and to promote coöperation between the field of pure research and the fields of application.

Membership dues including subscription to the ANNALS OF MATHEMATICAL STATISTICS are \$7.00 per year within the Western Hemisphere and \$5.00 per year elsewhere. Dues and inquiries regarding membership in the Institute should be sent to the Secretary-Treasurer of the Institute.

MEETINGS OF THE INSTITUTE

NEW YORK CITY, April 8-9, 1949

Abstracts must be in the hands of Assistant Secretary S. B. Littauer, Department of Industrial Engineering, Columbia University, New York 27, N. Y., not later than March 15.

BERKELEY, June 17, 1949

Abstracts must be in the hands of Assistant Secretary, IMS, Statistical Laboratory, University of California, Berkeley 4, Calif., not later than May 15.

BOULDER, COLO., August 29-September 1, 1949

Abstracts must be in the hands of the Secretary not later than July 15.

LOS ANGELES, November 25-26, 1949

Abstracts must be in the hands of the Secretary not later than October 15.

ANNUAL MEETING—NEW YORK CITY—December 26-31, 1949

To be held in conjunction with the meetings of the American Statistical Association.

Abstracts must be in the hands of Assistant Secretary S. B. Littauer, Department of Industrial Engineering, Columbia University, New York 27, N. Y., not later than November 15.

CHAPEL HILL, N. C., April 17-19, 1950.

Abstracts must be in the hands of Assistant Secretary Herbert Robbins, Institute of Statistics, University of North Carolina, Chapel Hill, N. C. not later than March 15.
