

# MATHEMATICAL REVIEWS

*A journal containing reviews of the mathematical literature of the world, with full subject and author indices*

Publication of this journal is sponsored by the American Mathematical Society, Mathematical Association of America, Institute of Mathematical Statistics, London Mathematical Society, Edinburgh Mathematical Society, Union Matematica Argentina, and others.

Subscriptions accepted to cover the calendar year only.  
Issues appear monthly except July. \$13.00 per year.

*Send subscription order or request for sample copy to*

**AMERICAN MATHEMATICAL SOCIETY  
531 West 116th Street, New York City 27**

## ***THE AMERICAN STATISTICIAN***

**Volume I, No. 1, August 1947**

A bi-monthly news magazine  
Successor to the A. S. A. BULLETIN

Early issues will carry popular articles, on INTERNATIONAL STATISTICAL CONFERENCES, STATISTICAL ENGINEERING, A WELL-ROUNDED CURRICULUM IN STATISTICS, NEW HIGH SPEED COMPUTING DEVICES, STATISTICAL CONTROL OF ACCIDENTS, EMPLOYMENT OPPORTUNITIES, ETC.

Regular features Will be: Current professional notes—Presentation problems—Questions and Answers—Chapter notes—News about members—

Annual subscription \$1.50—Free to A. S. A. members

**AMERICAN STATISTICAL ASSOCIATION**  
**1603 K Street, N. W. Washington 6, D. C.**

# BIOMETRIKA

*A Journal for the Statistical Study of Biological Problems*

Vol. XXIV, Parts I, and II, January, 1947

## CONTENTS

- I. The variance of the overlap of geometrical figures with reference to a bombing problem. By F. GARWOOD. II. A study of a first dynasty series of Egyptian skulls from Sakkara and of an eleventh dynasty series from Thebes. By A. BATRAWI and G. M. MORANT. III. The generalization of 'Student's' problem when several different population variances are involved. By B. L. WELCH. IV. The distribution of Kendall's  $\gamma$  coefficient of rank correlation in rankings containing ties. By G. P. SILITTO. V. The use of range in place of standard deviation in the  $t$ -test. By E. LORD. VI. The frequency distribution of  $\sqrt{g_1}$  for samples of all sizes drawn at random from a normal population. By R. C. GEARY. VII. On the computation of universal moments of tests of statistical normality derived from samples drawn at random from a normal universe. Application to the calculation of the seventh moment of  $b_2$ . By R. G. GEARY and J. P. G. WORLLEDGE. VIII. The asymptotical distribution of range in samples from a normal population. By G. ELFVING. IX. Limits of the ratio of mean range to standard deviation. By R. L. PLACKETT. X. Significance tests for  $2 \times 2$  tables. By G. A. BARNARD. XI. The choice of statistical tests illustrated on the interpretation of data classed in a  $2 \times 2$  table. By E. S. PEARSON. XII.  $2 \times 2$  tables. A note on E. S. Pearson's paper. By G. A. BARNARD. XIII. The cumulants of the  $z$  and of the logarithmic  $z^2$  and  $t$  distributions. By J. WISHART. XIV. The meaning of a significance level. By G. A. BARNARD.

The subscription price, *payable in advance*, is 45s. inland, 54s. export (per volume including postage). Cheques should be drawn to Biometrika and sent to "The Secretary, Biometrika Office, Department of Statistics, University College, London, W.C. 1." All foreign cheques must be in sterling and drawn on a bank having a London agency.

# ECONOMETRICA

*Journal of the Econometric Society*

*Contents of Vol. 15, No. 3, July, 1947*

	Page
RICHARD M. GOODWIN: Dynamical Coupling with Especial Reference to Markets Having Production Lags. . . . .	181
RENE ROY: La distribution du revenu entre les divers biens. . . . .	205
HERBERT B. WOOLEY: The General Elasticity of Demand. . . . .	226
J. A. NORDIN: Note on a Light Plant's Cost Curves. . . . .	231
LEONID HURWICZ: Some Problems Arising in Estimating Economic Relations. . . . .	236
T. W. ANDERSON: A Note on a Maximum-Likelihood Estimate. . . . .	241
C. RADHAKRISHNA RAO: Note on a Problem of Ragnar Frisch. . . . .	245

Published Quarterly

Subscription: \$7.00 per year

The Econometric Society is an international society for the advancement of economic theory in its relation to statistics and mathematics.

Subscriptions to *Econometrica* and inquiries about the work of the Society and the procedure in applying for membership should be addressed to Alfred Cowles, Secretary and Treasurer, The Econometric Society, The University of Chicago, Chicago 37, Illinois.

# THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

OFFICERS FOR 1947

*President:*

WILL FELLER, Cornell University, Ithaca

*Vice-Presidents:*

J. H. CURTISS, National Bureau of Standards

M. H. HANSEN, Bureau of the Census

*Secretary-Treasurer:*

PAUL S. DWYER, University of Michigan, Ann Arbor

The purpose of the Institute of Mathematical Statistics is to stimulate research in the mathematical theory of statistics and to promote coöperation between the field of pure research and the fields of application.

Membership dues including subscription to the ANNALS OF MATHEMATICAL STATISTICS are \$5.00 per year. The dues and inquiries regarding membership in the Institute should be sent to the Secretary-Treasurer of the Institute.

## ANNOUNCEMENTS OF FUTURE MEETINGS

The Thirtieth Meeting and Tenth Annual Meeting of the Institute will be held at the Commodore Hotel in New York City, December 29-31, 1947, in Connection with the Annual Meeting of the American Statistical Association.

The Thirty-first Meeting of the Institute will be held in conjunction with the meetings of Section A of the American Association for the Advancement of Science, in Chicago, Illinois, December 29-30, 1947.
