

To members of the Institute of Mathematical Statistics:

Mathematical Reviews

offers

*prompt review of the mathematical literature of the world
complete subject and author indices in last issue of volume
microfilm or photoprints of most articles reviewed (at cost)*

to you, as a member of one of the organizations sponsoring the publication, at the very low rate of \$6.50 per year (regular subscription price \$13.00)

Send subscription order or request for sample copy to

American Mathematical Society, 531 West 116th Street, New York City 27

AMERICAN STATISTICAL ASSOCIATION

Biometrics Bulletin

NEW bi-monthly organ of the biometrics section. \$1.00 a year for ASA members. \$2.00 a year for Associate Members, \$3.00 a year for subscribers.

Send subscriptions to

AMERICAN STATISTICAL ASSOCIATION
Biometrics Section 1603 K Street, N.W. Washington 6, D.C.

BIOMETRIKA

A Journal for the Statistical Study of Biological Problems

Vol. XXXIII, Part III, 1944

CONTENTS

- On the use of matrices in certain population mathematics. By P. H. LESLIE.
Errors in the routine daily measurement of the puerperal uterus. By C. SCOTT RUSSELL.
On a method of estimating frequencies. By J. B. S. HALDANE.
The mathematics of a population composed of k stationary strata each recruited from the stratum below and supported at the lowest level by a uniform annual number of entrants. By H. L. SEAL.
Moments of r and χ^2 for a fourfold table in the absence of association. By J. B. S. HALDANE.
The use of χ^2 as a test of homogeneity in a $(n \times 2)$ -fold table when expectations are small. By J. B. S. HALDANE.
The treatment of ties in ranking problems. By M. G. KENDALL.
On the distribution of the estimate of mean deviation obtained from samples from a Gaussian population. By H. J. GODWIN.

The subscription price, payable in advance, is 45s. inland, 54s. export (per volume including postage). Cheques should be drawn to Biometrika and sent to "The Secretary, Biometrika Office, Department of Statistics, University College, London, W.C. 1." All foreign cheques must be in sterling and drawn on a bank having a London agency.

ECONOMETRICA

Journal of the Econometric Society

Contents of Vol. 13, No. 3, July, 1945, include:

- RUTLEDGE VINING: Regional Variation in Cyclical Fluctuation Viewed as a Frequency Distribution
C. B. BENSON and B. F. KIMBALL: Mortality Characteristics of Physical Property Based upon Location Life Table and Re-Use Ratios
BRADFORD F. KIMBALL: The Failure of the Unit-Summation Procedure as a Group Method of Estimating Depreciation
HENRY B. MANN: Nonparametric Tests against Trend
VICTOR E. SMITH: Nonlinearity in the Relation between Input and Output: The Canadian Automobile Industry, 1918-1930
CHARLES W. COBB: Price and Volume

Published Quarterly

Subscription: \$7.00 per year

The Econometric Society is an international society for the advancement of economic theory in its relation to statistics and mathematics.

Subscriptions to *Econometrica* and inquiries about the work of the Society and the procedure in applying for membership should be addressed to Alfred Cowles, Secretary and Treasurer, The Econometric Society, The University of Chicago, Chicago 37, Illinois.

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

OFFICERS FOR 1945

President:

W. EDWARDS DEMING, Bureau of the Budget, Washington

Vice-Presidents:

WILLIAM G. COCHRAN, Iowa State College, Ames

J. L. DOOB, University of Illinois, Urbana

Secretary-Treasurer:

PAUL S. DWYER, University of Michigan, Ann Arbor

The purpose of the Institute of Mathematical Statistics is to stimulate research in the mathematical theory of statistics and to promote coöperation between the field of pure research and the fields of application.

Membership dues including subscription to the ANNALS OF MATHEMATICAL STATISTICS are \$5.00 per year. The dues and inquiries regarding membership in the Institute should be sent to the Secretary-Treasurer of the Institute.
