

MATHEMATICAL REVIEWS

offers

*prompt review of the mathematical literature of the world
complete subject and author indices in last issue of volume
microfilm or photoprints of most articles reviewed (at cost)*

at the very low rate of \$13 per year.

Publication of this journal is sponsored by the American Mathematical Society, Mathematical Association of America, London Mathematical Society, Edinburgh Mathematical Society, Academia Nacional de Ciencias de Lima, Union Matematica Argentina and others.

BIOMETRIKA

A Journal for the Statistical Study of Biological Problems

Vol. XXXIII, Part I. April 1943

CONTENTS

- Medical statistics from Graunt to Farr (concluded)..... MAJOR GREENWOOD
A study of a series of human skulls from Castle Hill, Scarborough.... K. L. LITTLE
A study of the Chinese humerus..... T. L. WOO
Variations in the weights of hatched and unhatched ducks' eggs.
J. M. RENDEL, with Appendices by J. B. S. HALDANE
The probability integral for two variables C. NICHOLSON
Tables of percentage points of the inverted beta (F) distribution, with prefatory
note by E. S. PEARSON.
MAXINE MERRINGTON AND CATHERINE M. THOMPSON
Tables of the probability integral of the "studentized" range.
H. O. HARTLEY AND E. S. PEARSON
Miscellanea:
Minimum range for a quasi-normal distribution. R. C. GEARY.

The subscription price, *payable in advance*, is 45s. inland, 54s. export (per volume including postage). Cheques should be drawn to Biometrika and sent to "The Secretary, Biometrika Office, Department of Statistics, University College, London, W.C. 1." All foreign cheques must be in sterling and drawn on a bank having a London agency.

SANKHYĀ

The Indian Journal of Statistics

Edited by P. C. Mahalanobis

VOL. 6, PART 3, 1943

Articles on Theoretical Statistics

- Some Simple Facts about the Separation of Degrees of Freedom in Factorial Experiments..... P. L. HSU
Certain Inequality Relationships among the Combinatorial Parameters of Incomplete Block Designs..... K. R. NAIR
A Note on two-fold Triple Systems..... K. N. BHATTACHARYYA
Note on the Sampling Error in the Method of Double Sampling..... CHAMELI BOSE
A Note on the Fitting of Straight Lines if both the Variables are subject to Error
K. R. NAIR AND K. S. BANERJEE

Annual subscription rate: 20 rupees (or 32 shillings)
Inquiries and orders may be addressed to the Editor,
Sankhyā, Presidency College, Calcutta, India.

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

OFFICERS FOR 1944

President:

W. A. SHEWHART, Bell Telephone Laboratories, New York

Vice-Presidents:

W. G. COCHRAN, Fine Hall, Princeton, N. J.

W. K. FELLER, Brown University, Providence, R. I.

Secretary-Treasurer:

P. S. DWYER, University of Michigan, Ann Arbor, Michigan.

The purpose of the Institute of Mathematical Statistics is to stimulate research in the mathematical theory of statistics and to promote coöperation between the field of pure research and the fields of application.

Membership dues including subscription to the ANNALS OF MATHEMATICAL STATISTICS are \$5.00 per year. The dues and inquiries regarding membership in the Institute should be sent to the Secretary-Treasurer of the Institute.

ANNOUNCEMENT OF SUMMER MEETING OF THE INSTITUTE

The Seventh Summer Meeting of the Institute of Mathematical Statistics will be held at Wellesley College, Wellesley, Massachusetts, Saturday and Sunday, August 12-13, 1944, in conjunction with meetings of the American Mathematical Society and the Mathematical Association of America.

On Saturday evening the Institute will hold a joint session with the Mathematical Association of America. This session will be devoted to an informal symposium on *Potential Opportunities for Statisticians and the Teaching of Statistics*. Dr. Walter A. Shewhart will open the discussion and Professor Harold Hotelling will speak on problems of teaching. Anyone interested is invited to participate in the following informal discussion.

On Sunday the following program of invited addresses will be given.

1. *The Problem of Tolerance Limits*. By Lt. J. H. Curtiss, U.S.N.R.
2. *On the Theory of Systematic Sampling*. By Dr. W. G. Madow.

In addition, the Institute will hold a joint session on Sunday with the American Mathematical Society which will be devoted to contributed papers.
