

MATHEMATICAL REVIEWS

provides

- 1 Prompt reviews of the mathematical literature of the world
- 2 Complete subject and author indices in last issue of volume
- 3 Microfilm or photoprints of most articles reviewed—at cost

at the very low rate of \$13 per year.

Publication of this journal is sponsored by the American Mathematical Society, Mathematical Association of America, London Mathematical Society, Academia Nacional de Ciencias de Lima, Union Matematica Argentina, and others.

JOURNAL OF THE AMERICAN STATISTICAL ASSOCIATION

MARCH, 1942 · \$1.50 PER COPY · \$6.00 PER ANNUM · VOL. 37 · No. 217

Government and the Statistician	WINFIELD W. RIEFLER
The Prospect for 1942	
Price Fixing of Agricultural Products	WARREN C. WAITE
Impact of Defense upon Industrial Capacity and Investment	M. JOSEPH MEEHAN
The Problems of Determining Fair Rents	KARL BORDERS
The Effect of the Full Moon on Trout Fishing	C. McC. MOTTLEY AND DANIEL R. EMBODY
Estimating Labor Requirements	DONALD H. DAVENPORT
The Impact of War on Labor Supply and Labor Utilization	LOUIS LEVINE
On Certain Biases in Samples of Human Populations	JEROME CORNFIELD
Defense Migration and Labor Supply	HOWARD B. MYERS
On the Sample Survey of Unemployment	LESTER R. FRANKEL AND J. STEVENS STOCK
Proposed Annual Sample Census of Population	PHILIP M. HAUSER
Relative Efficiencies of Various Sampling Units in Population Inquiries	MORRIS H. HANSEN AND WILLIAM N. HURWITZ
Recent Developments in Sampling for Agricultural Statistics	GEORGE W. SNEDECOR AND ARNOLD J. KING
The Meaning of Productivity Indexes	W. DUANE EVANS AND IRVING H. SIEGEL
Machine Method for the Extraction of Cube Root	OTIS E. LANCASTER
James Waterman Glover, 1868-1941	CECIL C. CRAIG

BIOMETRIKA

A Journal for the Statistical Study of Biological Problems

Vol. XXXII, Pts. III and IV

CONTENTS

I. Medical statistics from Graunt to Farr. Part II. By MAJOR GREENWOOD. II. Moments of the distributions of powers and products of normal variates. By J. B. S. HALDANE. III. The transformation of data from entomological field experiments so that the analysis of variance becomes applicable. By GEOFFREY BEALL. With three Figures in the Text. IV. Interpolation for fresh probability levels between the standard table levels of a function. By J. B. SIMAIKA. With four Figures in the Text. V. Partial rank correlation. By M. G. KENDALL. VI. Inequalities for multivariate frequency distributions. By C. E. V. LESER. VII. The mode and median of a nearly normal distribution with given cumulants. By J. B. S. HALDANE. VIII. Table of percentage points of the *t*-distribution. By MAXINE MERRINGTON. IX. The probability integral of the range in samples of *n* observations from a normal population. (i) Foreword and tables. By E. S. PEARSON. (ii) Numerical evaluation of the probability integral. By H. O. HARTLEY. X. Notes on testing statistical hypotheses. By E. S. PEARSON. With two Figures in the Text. XI. Simple tests for given hypotheses. By E. J. GUMBEL. XII. The range in random samples. By H. O. HARTLEY. *Miscellanea*: Review of *The Second Yearbook of Research and Statistical Methodology*. Books and Reviews edited by OSCAR KIRSER BUROS.

The subscription price, payable in advance, is 45s. inland, 54s. export (per volume including postage). Cheques should be drawn to Biometrika and sent to "The Secretary, Biometrika Office, Department of Statistics, University College, London, W.C. 1." All foreign cheques must be in sterling and on a bank having a London agency.

SANKHYĀ

The Indian Journal of Statistics

Edited by P. C. Mahalanobis

VOL. 5, PART 2, 1941

(Proceedings of the Third Session of the Indian Statistical Conference, 1940)

Presidential Address by Professor HAROLD HOTELLING.
Articles on Theoretical Statistics

A Two Variate Gamma Type Distribution..... W. F. KIBBLE
Probability Statements Regarding the Ratio of Standard Deviations and Correlation
Coefficient in a Bivariate Normal Population..... U. S. NAIR
A Comparison of Tests for the Significance of the Difference between Two Variances
U. S. NAIR
A Method to get the Significance Limit of a Type of Test Criteria
C. CHANDRA SEKAR and MARY G. FRANCIS
Discussion on the Mathematical Theory of the Design of Experiments R. C. BOSE

Articles in Economic and Business Statistics are also included

Annual subscription rate: 20 rupees (or 32 shillings)
Inquiries and orders may be addressed to the Editor,
Sankhyā, Presidency College, Calcutta, India.

THE INSTITUTE OF MATHEMATICAL STATISTICS

(Organized September 12, 1935)

OFFICERS FOR 1942

President:

CECIL C. CRAIG, University of Michigan, Ann Arbor, Michigan

Vice-Presidents:

A. T. CRAIG, University of Iowa, Iowa City, Iowa.

E. C. MOLINA, Bell Telephone Laboratories, New York City.

Secretary-Treasurer:

E. G. OLDS, Carnegie Institute of Technology, Pittsburgh, Pa.

The purpose of the Institute of Mathematical Statistics is to stimulate research in the mathematical theory of statistics and to promote coöperation between the field of pure research and the fields of application.

Membership dues including subscription to the ANNALS OF MATHEMATICAL STATISTICS are \$5.00 per year. The dues and inquiries regarding membership in the Institute should be sent to the Secretary-Treasurer of the Institute.

SUMMER MEETING OF THE INSTITUTE

The Fifth Summer Meeting of the Institute of Mathematical Statistics will be held at Vassar College, Poughkeepsie, New York, September 8-9, 1942, in conjunction with meetings of the American Mathematical Society and the Mathematical Association of America.

On Tuesday morning, the Institute will hold a joint session with the American Mathematical Society for the reading of short contributed papers on probability and statistics. A program of invited addresses is being planned for Wednesday morning. On Wednesday afternoon, a Symposium on *The Applicability of Mathematical Statistics to the War Effort* will be held jointly with the American Mathematical Society. The speakers are: Mr. H. F. Dodge of the Bell Telephone Laboratories, Professor John von Neumann of the Institute for Advanced Study, and Professor S. S. Wilks of Princeton University.

Abstracts (in duplicate) of contributed papers to be read at the Tuesday morning session must be submitted so as to reach the Secretary by August 1. Each paper will be limited to ten minutes.
