

THE ANNALS of MATHEMATICAL STATISTICS

(FOUNDED BY H. C. CARVER)

THE OFFICIAL JOURNAL OF THE INSTITUTE
OF MATHEMATICAL STATISTICS

Contents

	PAGE
The Limits of a Distribution Function If Two Expected Values are Given. R. v. MISES.....	99
Confidence Limits for Continuous Distribution Functions. A. WALD AND J. WOLFOVITZ.....	105
On the Power of the L_1 Test for Equality of Several Variances. GEORGE W. BROWN.....	119
Complete Simultaneous Fiducial Distributions. M. S. BARTLETT.....	129
On Tests of Significance in Time Series. G. TINTNER.....	139
On an Integral Equation in Population Analysis. ALFRED J. LOTKA.....	144
The Interpretation of Certain Regression Methods and Their Use in Biological and Industrial Research. C. EISENHART.....	162
Notes:	
On the L_1 Test for Many Samples. A. M. MOOD.....	187
On Techebycheff Approximation for Decreasing Functions. C. D. SMITH.....	190
Correction of Sample Moment Bias Due to Lack of High Contact and to Histogram Grouping. DINSMORE ALTER.....	192
Frequency Distribution of Product and Quotient. E. V. HUNTINGTON.....	195
On the Moments About the Arithmetic Mean of a Hypergeometric Frequency Distribution Function. HAROLD D. LARSEN.....	198
Errata. HILDA GEIRINGER.....	202

Vol. X, No. 2 — June, 1939
